Please explain how a senior citizen like me can pay an extra \$93.93 per year to Enbridge Gas without a complimentary increase in either my Old Age Pension or Canada Pension. The increase is excessive to say the least and WILL cause

hardship for many seniors and others on fixed incomes. Enbridge must find other ways to pay for pollution remedies. They are responsible for their own "dirty linen" and they should not ask the consumer to pay for their laundry as well as their own.
