Dear Ms. Walli:

Please accept this letter as an expression of intent for Rodan Energy Solutions Inc. to participate in the following consultations: "Utility Remuneration and Responding to Distributed Energy Resources Consultation Initiation" (Board File Numbers: EB-2018-0287 and EB-2018-0288). Rodan Energy is not requesting cost eligibility.

Rodan Energy is a leading North American energy management company delivering innovative solutions to large commercial and industrial energy users, as well as power distribution and generation companies. Our expertise in distributed energy and energy intelligence allows our customers to reduce energy costs, enhance power system reliability and help develop a sustainable energy future.

The sector is undergoing transformation and we are keen to provide input on securing the benefits of this transformation and the mitigation of potential adverse consequences. We strongly support facilitating lower costs, better service and more choice for customers. Sector participants, including utilities and other service providers, should be encouraged to embrace innovation in their operations and the products they offer to consumers. We look forward to providing input on these consultations

Sincerely,
