Dear Mr. Mondrow:

**Re: Request for intervenor status and cost eligibility
Enbridge Gas Inc.
Chatham-Kent Rural Project
Ontario Energy Board File Number: EB-2018-0188**

This letter is in response to your request for late intervenor status and cost eligibility on behalf of the Industrial Gas Users Association (IGUA) in the above referenced application. IGUA's intervention request was received by the Ontario Energy Board (OEB) on April 18, 2019, after the date for filing such requests had closed. IGUA states that it will abide by the dates set out in Procedural Order No. 1, dated April 17, 2019, if its request for late intervenor status is granted.

IGUA's primary concern relates to the continuing suitability of economic evaluation models and rate impact implications of various gas system reinforcement/expansion projects.

The OEB did not receive any objection from Enbridge Gas Inc.

The OEB is satisfied that IGUA has a "substantial interest" in the proceeding within the meaning of Rule 22.02 of the OEB's *Rules of Practice and Procedure* and is approved as an intervenor. IGUA is eligible to apply for an award of costs under the OEB's *Practice Direction on Cost Awards*. Cost awards are made by way of OEB order at the end of a hearing.

Yours truly,
