-- Comments --

The Council of the Township of Malahide wishes to express concerns regarding the proposed natural gas rate increase. The Council is concerned that such a rate increase will have a substantial impact on municipal services budgets resulting in taxation increases to its ratepayers. In turn, many of these Malahide taxpayers will also see natural gas rate increases for their own personal properties. This will only compound the financial impact and the Council has received concerns from many of its constituents that the resulting impact puts a significant burden on them that they may not be able to afford. The Malahide Township Council would like to ask that EPCOR consider alternative revenue options rather than increasing the natural gas rates as proposed.
