Filed: April 30, 2019 EB-2019-0002 Exhibit I Tab 1.4 Schedule 1.17 OEB Staff 17 Page 1 of 2

1	OEB STAFF INTERROGATORY 17
2	1.4 Is the IESO's Capital Expenditure budget for Fiscal Year 2019 appropriate?
3	Staff IR #17
4	<u>INTERROGATORY</u>
5	Reference: Exhibit A-2-2. Pg. 17 of 27
6 7	Preamble: The table entitled Capital on page 17 of the IESO's Business 2019-2021 Plan provides a detailed account of all planned capital expenditures over the three-year planning period.
8	Questions:
9 10 11	a) Given the IESO did not spend its capital budget on either Core Operations or the MRP in 2018, how confident is the IESO that it will spend its budgeted 2019 allocation in both areas?
12 13	b) As of April 1, 2019, what percent of its 2019 budgeted capital expenditures for both core operations and MRP has the IESO spent?
14	RESPONSE
15 16	a) The capital envelope for 2018 was \$26.6 million and included \$4.0 million for Market Renewal related projects. Actual capital spending for 2018 was \$15.8 million. The primary

- variance driver was delayed starts of capital work within Market Renewal, Settlement
 Systems Replacement, Aspen refresh and IESO Portal, as well as a number of minor projects
 that were not undertaken during the year.
- The 2019 capital envelope was reduced to \$17.3M for core projects excluding MRP, to bring the total requirement more in line with actual trends. Planning process refinements are expected to reduce the variances between actual and planned capital spending in 2019 and going forward.
- The IESO continually manages prioritization of projects during the course of the year andCore Operations capital spending is expected to be in line with budget.

Filed: April 30, 2019 EB-2019-0002 Exhibit I Tab 1.4 Schedule 1.17 OEB Staff 17 Page 2 of 2

- 1 The capital underspend in MRP for 2018 was the result of delays in the release of the high-
- level design documents for the Energy and Capacity work streams. In 2019, the program is
 on schedule and is expected to be in line with the budgeted spend.
- 4 b) As of April 1, 2019 the IESO has spent 10.2% of its core operations capital budget.
- As of April 1, 2019, MRP has spent 5% of its capital budget with only 8% of the total capital
 budget for MRP falling within the first quarter of 2019.

ENERGY PROBE INTERROGATORY 9

2	Issue 1.4 Is the IESO's Capital Expenditure budget for Fiscal Year 2019 appropriate?
3 4	Issue 6.3 Are the IESO's forecast 2019 capital costs for the Market Renewal Program appropriate in the context of the scope and timing of the overall project?
5	INTERROGATORY
6	EP-9
7 8	References : Exhibit B Tab 2 Schedule 1 page 2 Table 4; Exhibit B Tab 3 Schedule 1, Attachment 1, Appendix 2-AA
9	Preamble: IESO has underspent its capital budget in 2016, 2017 and again in 2018
10 11	a) Please provide the actual 2018 Operations and MRP Capital Project spend. Reconcile to the above references.
12 13	b) Please provide a detailed explanation for the underspend in IESO's capital budget for 2018.
14 15	c) Please discuss in detail why the major "jump" in MRP Capital in 2019 can be managed based on the history of underspend?
16 17	d) Should IESO have an MRP Capital Variance Account (MRPCVA) to record and levelize MRP Capital Expenditures? Please discuss, including smoothing of fees.
18	<u>RESPONSE</u>

a) Please see the response to AMPCO Interrogatory 18 b) & c), at Exhibit I, Tab 1.4,
Schedule 12.18. The table below provides 2018 Actuals:

Category	2018 Actuals
Core Operations	14.4
MRP	1.4
Total	15.8

21

- b) Please see the response to OEB Staff Interrogatory 17 a), at Exhibit I, Tab 1.4,
- 23 Schedule 1.17 and AMPCO Interrogatory 18 b).

Filed: April 30, 2019 EB-2019-0002 Exhibit I Tab 1.4 Schedule 4.09 ENERGY PROBE 9 Page 2 of 2

- c) Please see the response to OEB Staff Interrogatory 26 c), at Exhibit I, Tab 6.2,
 Schedule 1.26.
- d) IESO's Forecast Variance Defferal Account is used for MRP, as with other IESO
 initiatives, to retain and refund program funding collected in years that the IESO
 underspent its budget and track over-spending to be collected in a future funding
 period.

The IESO utilizes its credit facilities to obtain capital for its projects, including MRP. The
recovery of the capital investment in MRP will occur when the energy and capacity
assets are in service through amortization expense, eliminating the requirement for a
capital variance account. The multi-year nature of the Market Renewal Program results
in differing proportions of capital and operating expenses in each implementation year.
The amortization of the capital investment will also occur over a multi-year timeframe.
These factors naturally result in a rate smoothing effect.

References.: Exhibit A, Tab 2, Schedule 2, Page 7, 2019-2021 Business Plan;
Exhibit B, Tab 3, Schedule 1, Attachment 1, Appendix 2-AA (Capital Projects)
Preamble: "In 2019, the IESO is planning a capital envelope of \$17.3 million to facilitate the delivery of corporate priorities associated with its core business. An investment of \$38 million in capital costs is required to fund the next stage of the Market Renewal Program. Further details on the overall capital program are included in Appendix 3."
a) Please provide a schedule similar to Appendix 2-AAA showing the Capital Budgets for 2018 (Forecast and Actual) by category and the 2019 and 2020 Forecasts.
b) Expand and provide a schedule for the MRP 2018 (Forecast and Actual) by category and the 2019 and 2020 Forecasts.
c) Please provide a variance report for 2018 for Core Operations and MRP.
RESPONSE
a) Please see table below:

Category	2018 Forecast	2018 Actuals	2019 Envelope	2020 Envelope
Core Operations	14.4	14.4	17.3	20.3
MRP	1.2	1.4	38.0	43.3
Total	15.6	15.8	55.3	63.6

21 b) See table in a)

c) Please see the response to OEB Staff Interrogatory 17 a), at Exhibit I, Tab 1.4,
Schedule 1.17.
