**Re: Hydro One Networks Inc. Application for Approval of Attribution of Costs
in the Supply to Essex County Transmission Reinforcement ("SECTR") Deferral Account
Intervenor Request
Board File No.: EB-2019-0120**

Dear Ms. Walli,

On May 3, 2019, the Board published a Notice of Application regarding the above-noted matter. Entegrus Powerlines Inc. ("Entegrus") seeks intervenor status in this proceeding.

Entegrus was an intervenor in Hydro One Networks Inc.'s ("HONI") SECTR Leave to Construct Application (EB-2013-0421). In that proceeding, HONI proposed capital contributions directly to embedded distributors, including Entegrus. The EB-2019-0120 Application, as filed, does not address proposed contributions to be sought from embedded distributors. It is currently unclear whether such proposed contributions will be sought by Hydro One Distribution by way of another regulatory process. Further, Entegrus maintains a strong interest in the Application and the associated proposed cost allocations. Entegrus does not intend to seek cost recovery.
