Re: Post-2020 Natural Gas Demand Side Management Framework (OEB File Number: EB-2019-0003)

Dear Ms. Walli,

In response to the OEB's invitation for interested parties to participate in the post-2020 DSM framework, this letter submission from the City of Toronto (the "City") confirms its intent to participate in the consultation process. The City intends to participate in person during the Stakeholder Meeting on June 13, 2019 and will not be requesting a cost award.

TransformTO is the City's ambitious climate action strategy to achieve emissions reduction by 80% by 2050 based on 1990 levels. The City recognizes that natural gas conservation programs are an important factor in achieving TransformTO targets and looks forward to participating in the consultation process for the next DSM framework.

Below are members of the City that will be attending the June 13, 2019 Stakeholder Meeting.

Rae-Anne Miller (or designate)
Manager, Public Energy Initiatives – Existing Buildings
Rae-Anne.Miller@toronto.ca / 416-392-8767

Marco Iacampo (or designate)
Program Manager, Policy and Research
Marco.Iacampo@toronto.ca / 416-392-6063

Sincerely,

per/ 

Jim Baxter, P. Eng., MBA
Director, Environment & Energy Division
