**Re: Supply to Essex County Transmission Reinforcement Deferral Account
Board File No.: EB-2019-0120**

Dear Ms. Walli,

Pursuant to Procedural Order #1, please see Essex Powerlines Corporation's ("EPLC") interrogatories below.

Should you have any questions or concerns, please do not hesitate to contact me anytime.

Sincerest regards,

[Original Signed By]

Kristopher Taylor
Director of Corporate Strategy
Essex Power Corporation

Cc: Joe Barile, General Manager, EPLC
Jennifer House, Regulatory Accounting Analyst, EPLC

ONTARIO ENERGY BOARD

IN THE MATTER OF *the Ontario Energy Board Act, 1998, S.O.1998, c. 15, (Schedule B);*

AND IN THE MATTER OF an application by Hydro One Networks Inc. to the Ontario Energy Board for an Order or Orders for Approval of Attribution of Costs in the Supply to Essex County Transmission Reinforcement.

INTERROGATORIES

ON BEHALF OF ESSEX POWERLINES CORPORATION

Preface:

EPLC was an intervenor in Hydro One Network's SECTR Leave to Construct Application (EB-2013-0421). In that proceeding, Hydro One Network proposed capital contributions directly to Hydro One Distribution as well as embedded distributors.

Reference:

Hydro One Network's Inc. letter to the OEB of February 28, 2019, entitled "EB-2013-0421 – Hydro One Networks Inc.'s Section 92 – Request for Approval on Attribution of Cost", page 2:

"The OEB's expeditious approval of these allocations will ease all impacted parties' (e.g., downstream distribution-connected customers) uncertainties regarding financial obligations and enable the completion of contracts and connections among other things related to this Project as documented in HONI's submissions in EB-2016-0003."

EPLC-1

Please confirm that the EB-2019-0120 application addresses solely capital contributions sought from Hydro One Distribution and does not address capital contributions to be sought from embedded distributors, like EPLC, or any of EPLC's downstream distribution customers.

EPLC-2

- i) Please confirm whether or not Hydro One Distribution or Hydro One Transmission intends to propose capital contributions from embedded distributors, like EPLC, or any of EPLC's downstream distribution customers.
- ii) Where the answer to EPLC-2 i) is confirmed, please describe the basis as well as the process that Hydro One Distribution or Hydro One Transmission intends to follow.
- iii) Where the answer to EPLC-2 i) is confirmed, please provide the proposed capital contribution amounts for EPLC and/or any of its downstream distribution customers.
- iv) Where the answer to EPLC-2 i) is confirmed, please provide any/all load/forecast related information by which the allocations were derived.
