

# ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ALGOMA POWER INC.

**Algoma Power Inc. has applied to raise its electricity distribution rates and other charges.**

**Learn more. Have your say.**

Algoma Power Inc. has applied to the Ontario Energy Board (OEB) to raise its electricity distribution rates effective January 1, 2020. If the application is approved as filed, a typical residential customer using 750 kWh per month and a typical commercial customer using 2,000 kWh per month would see an increase by the following amounts:

Customer Class	Bill Impact
Residential using 750 kWh	\$2.33 per month
Commercial customer using 2,000 kWh	\$7.44 per month

Other customers, including businesses, may also be affected.

The above noted residential customer bill impact includes reductions under the Distribution Rate Protection program.

Algoma Power Inc. also holds an interim electricity distribution licence for Dubreuil Lumber Inc. The proposed rates may also affect customers in the Township of Dubreuilville. It is important to review the application carefully to determine whether you may be affected by these changes.

Distributors such as Algoma Power Inc. typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

## BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process.

- You can review Algoma Power Inc.'s application on the OEB's website now.
