Dear Mr. Denomy

**Re: Enbridge Gas Inc.
Scugog Island Pipeline Project
Ontario Energy Board File Number: EB-2017-0261**

The Ontario Energy Board (OEB) is in receipt of your letter dated May 27, 2019, regarding a change to the financing of the Scugog Island Pipeline Project (Project). In your letter, you state that the Township of Scugog and the Mississaugas of Scugog Island First Nation will no longer be providing a voluntary financial contribution to the Project in the form of an Incremental Tax Equivalent (ITE). Enbridge Gas Inc. has re-run the feasibility analysis for the Project to include funding provided under section 36.2 of the *Ontario Energy Board Act, 1998* and excluding the ITE contributions, and states that the profitability index (PI) for the Project remains above 1.0.

In order to make a determination in this matter, I require additional information. Specifically, please provide for the record:

1. Confirmation that there have been no changes to the volumetric forecast or term of System Expansion Surcharge for the Project
2. A more detailed explanation for why the PI for the Project remains above a 1.0 despite the loss of municipal and First Nation ITE.

Yours truly,

Original Signed by

Nancy Marconi
Manager, Applications Supply and Infrastructure
