**VIA COURIER and RESS**

Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
2300 Yonge Street, 27<sup>th</sup> Floor  
Toronto, ON  
M4P 1E4

Dear Ms. Walli:

**Re: Upper Canada Transmission, Inc. operating as NextBridge Infrastructure  
("NextBridge")  
Ontario Energy Board ("Board") File EB-2019-0127  
East-West Tie Project  
Amended Expropriation Application**

---

On April 17, 2019, NextBridge filed an expropriation application with the Board under s.99 of the *Ontario Energy Board Act, 1998*, in respect of 23 parcels of land. Since the filing of the expropriation application, NextBridge has reached an agreement in relation to 10 of these parcels of land, and determined that it no longer requires any short term lease interests.

Therefore, NextBridge has amended its expropriation application to reflect that, as of today's date, land interests are required in respect of 13 parcels of land. NextBridge has accordingly deleted certain appendices included in the original expropriation application and marked them as "intentionally deleted". Although there have been no amendments to Appendices A, B, C, and D, these appendices have been included in the amended expropriation application in order to provide the Board with a comprehensive document.

Enclosed is the amended expropriation application, and a redlined version of the same showing the changes that were made to the April 17, 2019 application. The two versions of the amended expropriation application (clean and redlined) have been filed electronically through the Board's RESS, and two paper copies of each will be couriered to the Board.

Please contact the undersigned at [nina.lindop@enbridge.com](mailto:nina.lindop@enbridge.com) or at (780) 420-5202 if you have any questions.

Yours truly,

*(Original Signed)*

Nina Lindop  
Legal Counsel  
Enbridge Employee Services Canada Inc.

## **ONTARIO ENERGY BOARD**

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), as amended, (the “Act”);

**AND IN THE MATTER OF** an application by Upper Canada Transmission, Inc. under section 99 of the Act, for an Order or Orders granting authority to expropriate land for the purpose of constructing and operating a new double circuit 230 kV electricity transmission line between Thunder Bay, Ontario and Wawa, Ontario;

### **AMENDED APPLICATION FOR EXPROPRIATION**

1. The Applicant, Upper Canada Transmission, Inc. operating as NextBridge Infrastructure (“NextBridge”) is a New Brunswick corporation established for the purposes of developing, owning, and operating electricity transmission facilities in Ontario in its capacity as the general partner, acting for and on behalf of the limited partnership, NextBridge Infrastructure LP.
2. NextBridge hereby applies pursuant to section 99 of the Act for an Order or Orders granting authority to expropriate certain interests in land, as more particularly described herein. NextBridge requires authority to expropriate such interests in land in order to construct and operate a new double circuit 230 kilovolt overhead electricity transmission line on a new right of way (“ROW”) between Thunder Bay and Wawa in northwestern Ontario (the “EWT Project”).
3. In March of 2016, the Lieutenant Governor in Council issued an order declaring, pursuant to section 96.1 of the Act, that the construction of the EWT Project is needed as a priority project. An Updated Assessment of the Need for the EWT

Project issued by the Independent Electricity System Operator (the “IESO”) on December 1, 2017 indicates that “[t]his project continues to be the IESO’s recommended option to maintain a reliable and cost-effective supply of electricity to the Northwest for the long term.” The IESO reaffirmed this need in an update on June 29, 2018 in response to a request from the Ontario Energy Board (the “Board”).

4. On January 30, 2019, the Minister of Energy, Northern Development and Mines, with the approval of the Lieutenant Governor in Council, issued a Directive pursuant to section 28.6.1 of the Act (the “Directive”) requiring the Board to amend the conditions of NextBridge’s transmission licence to include a requirement that NextBridge proceed with immediacy to construct, expand, or reinforce the EWT Project.
5. In its EB-2017-0182/EB-2017-0194/EB-2017-0364 Decision and Order dated February 11, 2019, the Board granted leave to NextBridge to construct the EWT Project pursuant to section 92 of the Act. In its EB-2019-0088 Decision and Order, also dated February 11, 2019, the Board ordered that NextBridge’s electricity transmission licence be amended in accordance with the requirements of the Directive.
6. NextBridge’s Environmental Assessment was approved by the Ministry of Environment, Conservation and Parks on March 21, 2019.
7. NextBridge’s preferred approach to acquiring land rights for the EWT Project has been through negotiation of mutually acceptable agreements with property owners. NextBridge’s land agents have been working in the area since November 2013 in support of the EWT Project and NextBridge’s land optioning and permitting program was initiated in March 2016 to secure the necessary land rights. Land

acquisition has been executed in an open and respectful manner, with a commitment to timely, meaningful, and transparent dialogue as it relates to property owner compensation and land rights.

8. To support and facilitate timely resolution of negotiations and fair settlements with property owners, NextBridge established and applied a set of consistent compensation principles. A “Compensation Principles” document was provided to all land interest holders describing land rights required for the EWT Project, landowner engagement principles and agreement and compensation offerings. This document was filed with the Board during the EB-2017-0182/EB-2017-0194/EB-2017-0364 proceeding.
9. All directly affected private property owners have been presented with an option agreement and offer of compensation consistent with NextBridge’s land compensation principles. Despite NextBridge’s ongoing efforts to reach voluntary settlements with all directly affected property owners, the schedule and in-service date for the EWT Project require that NextBridge proceed now with this application for authority to expropriate the remaining property interests.
10. The property interests that NextBridge seeks authority to expropriate for the EWT Project are as follows:
  - a) Permanent Transmission Line Easements (“Permanent Line Easements”)

Permanent Line Easements are required for the construction and ongoing operation and maintenance of the EWT Project. The required ROW width for the EWT Project is approximately 64 meters, with variations at points to accommodate narrower or wider ROW width. The width of the ROW varies based on factors such as the anticipated location of structures, the length of

span, the terrain, sensitive features and soil conditions, and at all times is sufficient to contain the infrastructure within the boundaries of the easement.

b) Permanent Road Use Easements (“Permanent Road Easements”) and Temporary Road Use Easements (“Temporary Road Easements”)

Permanent Road Easements are required for access, maintenance and operational purposes during the construction and ongoing operation and maintenance of the EWT Project. Temporary Road Easements are required for temporary road use and access during the construction of the EWT Project. The approximate cleared width required for access roads is 20 metres with a typical road surface of 6 to 8 metres; however, this approximate width may vary depending on the location and terrain of the proposed access road, and the extent of improvements required based on existing conditions.

11. The authority to expropriate requested in this application is in the public interest as it is required to allow NextBridge to construct and operate the EWT Project to meet the need to maintain a reliable and cost effective supply of electricity to northwestern Ontario. NextBridge has taken reasonable steps to minimize the impact of the proposed expropriations on the subject properties and it has taken appropriate steps to minimize the disruption to property owners and interest holders by requesting property interests that are no larger and no more extensive than necessary.
12. A map of the entire project route is provided in Appendix A to this application. A description of the rights sought by NextBridge for the Permanent Line Easements is provided in Appendix B. Descriptions of the rights sought for Permanent Road Easements and Temporary Road Easements are provided in Appendixes C and D, respectively.

13. The total number of parcels of land in respect of which NextBridge seeks authority to expropriate is 13. At Appendix F of this application, NextBridge has provided specific information and documents relating to each of the parcels of land that are the subject of this application for authority to expropriate. More particularly, Appendices F-3 to F-6, F-11 to F-15, F-19, F-20, F-22, F-23 set out the following information and documents for each of the parcels:
- a) name and address of the owner of the parcel of land (with personal information redacted in accordance with the Board's policies);
  - b) names and addresses and interests held by any other persons with apparent interests in the particular parcel of land (with personal information redacted in accordance with the Board's policies);
  - c) nature of the property interest that NextBridge seeks to expropriate (Permanent Line Easement, Permanent Road Easement, or Temporary Road Easement);
  - d) legal description of the parcel in respect of which NextBridge seeks authority to expropriate;
  - e) a plan; and,
  - f) ortho-imagery property sketches that were previously provided to property owners for illustrative purposes.
14. As of the date of filing this Amended Application, NextBridge has reached an agreement in relation to certain parcels that were included in the original Application, and determined that it no longer requires any short term lease interests. Therefore, NextBridge has deleted certain appendices that related to parcels for which authority to expropriate is no longer needed.

15. NextBridge therefore respectfully requests that the Board make the following orders:
  - a) an order granting authority to expropriate interests in land, particulars of which are provided in Appendices F-3 to F-6, F11 to F-15, F-19, F-20, F-22, F-23 of this application, subject to any revision to these Appendices that may be provided by NextBridge if it reaches additional agreements with property owners;
  - b) such further and other orders as are needed for the notice, conducting and consideration of this application; and
  - c) such further or other interim or final orders as NextBridge may request and the Board may deem appropriate to allow NextBridge to construct, operate and maintain the EWT Project in the public interest.
16. Construction of the EWT Project is expected to begin in June, 2019. Based on the current schedule for construction, NextBridge requires access to the land described in this application by December, 2019. As such, Nextbridge requests a decision of this Board at its earliest opportunity and no later than September 13, 2019.
17. NextBridge requests that a copy of all documents filed with or issued by the Board in connection with this application be served on it and on its counsel, as follows:

PERMANENT LINE EASEMENTS  
DESCRIPTION OF RIGHTS SOUGHT

The rights sought for the permanent line easements are:

- a) In respect of the lands and premises legally described as XXXXX (the "Property"), an easement and right-of-way in perpetuity in favour of NextBridge, its officers, employees, agents, contractors, subcontractors, tenants, franchisees, licensees, successors and assigns ("NextBridge"), in, on, over, across, along and under that portion of the Property more particularly described as XXXXX ("Easement Area") and as shown on the diagrams attached hereto, with such persons, vehicles and equipment necessary for the purposes of erecting, constructing, replacing, relocating, improving, enlarging, removing, maintaining, operating and utilizing, from time to time, a line of transmission structures or poles (which may include lattice or truss towers or structures in the Easement Area), with such stability structures, including without limitation, wires, guy wires, and/or cables (whether above ground or buried), for the transmission of electrical energy, and all necessary and proper foundations, anchors, communication vaults, footings, cross arms and other appliances, facilities and fixtures for use in connection therewith (which may include fiber optic cables and telecommunications fiber used for purposes relating to the transmission of electricity and for any other lawful purpose) (collectively, the "Transmission Facilities") in, on, over, across, along and under the Easement Area; together with the right of ingress to and egress from the Transmission Facilities over and along the remainder of the Property.
- b) The owner shall not construct, install, or permit to be constructed or installed, any improvements, fences, structures, buildings, foliage or vegetation, utility lines or other improvements of any type whatsoever upon or near the Easement Area which would inhibit or impair any of NextBridge's rights or benefits as set forth in this Easement. NextBridge shall have the right, without compensation to the owner, to

cut, prune and remove or otherwise dispose of any foliage or vegetation on or near the Easement Area that NextBridge deems a threat or potential threat to NextBridge's Transmission Facilities or its rights hereunder. NextBridge shall, at its own risk and expense, during the Term of this Easement, maintain the Easement Area, including without limitation the Transmission Facilities, in accordance with good utility practices for tree trimming and clearing transmission line corridors in the Province of Ontario. NextBridge covenants and agrees that it shall take all commercially reasonable efforts to conduct its maintenance activities in a manner to minimize any interference with the use of the Easement Area by the owner or any other party entitled to use the Easement Area.

PERMANENT ROAD EASEMENTS  
DESCRIPTION OF RIGHTS SOUGHT

The rights sought for the permanent road easements are:

- a) An easement and right-of-way in perpetuity in favour of NextBridge, its officers, employees, agents, contractors, subcontractors, tenants, franchisees, licensees, successors and assigns ("NextBridge"), in, on, over, across and along that portion of the lands described as XXXXX ("Easement Area") and as shown on the diagrams attached hereto, for pedestrian and vehicular access over the Easement Area to allow NextBridge and other invitees access to NextBridge's transmission facilities (being transmission facilities for electricity and/or fiber optic telecommunications), along with the right to improve the surface of the Easement Area in order to accommodate the transportation of equipment and vehicles.
  
- b) The owner covenants and agrees that it shall not construct, install, or permit to be constructed or installed, any improvements, fences, structures, buildings, foliage or vegetation, or improvements of any type whatsoever upon the Easement Area which would inhibit or impair any of NextBridge's rights or benefits as set forth in this Easement. NextBridge shall have the right, without compensation to the owner, to cut, prune and remove or otherwise dispose of any foliage or vegetation on or near the Easement Area that NextBridge deems a threat or potential threat to NextBridge's rights hereunder. NextBridge covenants and agrees that it shall take all commercially reasonable efforts to conduct its activities in a manner to minimize any interference with the use of the Easement Area by the owner or any other party entitled to use the Easement Area.

TEMPORARY ROAD EASEMENTS  
DESCRIPTION OF RIGHTS SOUGHT

The rights sought for the temporary road easements are:

- a) An easement and right-of-way in favour of NextBridge, its officers, employees, agents, contractors, subcontractors, tenants, franchisees, licensees, successors and assigns ("NextBridge") in, on, over, across and along that portion of the lands described as XXXXX ("Easement Area") and as shown on the diagrams attached hereto, for pedestrian and vehicular access over the Easement Area to allow NextBridge and other invitees access to NextBridge's transmission facilities (being transmission facilities for electricity and/or fiber optic telecommunications), along with the right to improve the surface of the Easement Area in order to accommodate the transportation of equipment and vehicles, for a term of seven (7) years\* from the date that the interest is granted.
  
- b) The owner covenants and agrees that it shall not construct, install, or permit to be constructed or installed, any improvements, fences, structures, buildings, foliage or vegetation, or improvements of any type whatsoever upon the Easement Area which would inhibit or impair any of NextBridge's rights or benefits as set forth in this Easement. NextBridge shall have the right, without compensation to the owner, to cut, prune and remove or otherwise dispose of any foliage or vegetation on or near the Easement Area that NextBridge deems a threat or potential threat to NextBridge's rights hereunder. NextBridge covenants and agrees that it shall take all commercially reasonable efforts to conduct its activities in a manner to minimize any interference with the use of the Easement Area by the owner or any other party entitled to use the Easement Area.

\* In the case of the following parcels, NextBridge requires a four (4) year term from the date that the interest is granted: EWT 5221, EWT 5190, EWT 8072, EWT 9003, EWT 9524, EWT 9005, EWT 9004.
