**Re: Hydro One Networks Inc. Distribution Rates Application 2018 - 2022  
Board File Number: EB-2017-0049  
Errata for June 6, 2019 Interim Rate Order**

The EB-2017-0049 Interim Rate Order issued on June 6, 2019 contained an erroneous Tariff of Rates and Charges.

This matter was brought to the OEB's attention by Hydro One subsequent to the issuance of the Interim Rate Order. Hydro One advised that the Tariff of Rates and Charges did not incorporate an adjustment for a correction to the Global Adjustment account balance that Hydro One had stated in its Draft Rate Order Reply submission needed to be incorporated into the final rate order.<sup>1</sup>

Hydro One has provided to the OEB a Tariff of Rates and Charges reflecting this adjustment and supporting calculations. The OEB has examined this material and is satisfied that it appropriately corrects this error.

Pursuant to its powers under Rule 41.02 of the OEB's Rules of Practice and Procedure, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The OEB has amended the Decision and Order to reflect the correct Tariff of Rates and Charges. The revised Interim Rate Order is attached. This revised Interim Rate Order supersedes and replaces the previously issued Interim Rate Order. The revised Interim Rate Order does not change the OEB's findings. The calculations supporting it are also attached to this letter.
