John Bryce Conrad	President, Chaudiere Hydro North L.P.
Gregory Clarke	Chief Electricity Generation Officer
Geoff Simpson	Chief Financial Officer
Franz Kropp	Director - Generation

(a) The OEB Act defines "ancillary services" as services necessary to maintain the reliability of the IESO-
controlled grid, including frequency control, voltage control, reactive power, and operating reserve services Does the applicant intend to sell electricity or ancillary services into the IESO administered market?
✓Yes No
(b) Does the applicant intend to settle with an electricity distributor for the electricity injected into the distribution system in accordance with the retail settlement system?
✓ Yes, please identify the electricity distributor Hydro Ottawa Limited  No
(c) Does the applicant intend to sell electricity to another person?
☐ Yes ☑ No
If yes, is this person a consumer (i.e., a person who uses, for the person's own consumption, electricity that t person did not generate)?
Yes. The applicant may require a retailer licence. The application form can be found at <a href="https://www.oeb.ca">www.oeb.ca</a> No
9. Facility Description Is the applicant applying to be licensed for more than one facility?
<ul><li>Yes, please make a copy of sections 9, 10 and 11 for each facility and provide information for each facility</li><li>✓ No</li></ul>
Generation Type
☐ Diesel ☐ Natural Gas ☑ Water ☐ Wind
Other, please specify
Installed Capacity 27 MW
Number of Units 4
If the applicant is selling ancillary services, please describe:
Facility name: Hull 2
Facility Address: 1 Rue Eddy, Gatineau, QC

Licence Responsibility/Qualification Sought			
☑ Owner and Operator			
☐ Owner Only. Please identify operator			
Operator Only. Please identify owner			
If the applicant is applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed; if licensed, please provide the licence number and, if not, indicate when an application for the other qualification will be filed with the OEB.			
10. Facility History and Status			
Is the facility in commercial service?			
<ul><li>Yes, proceed to section 10(a)</li><li>✓ No, proceed to section 10(b) or 10(c) as applicable.</li></ul>			
(a) Existing Facility in Commercial Service  When did this facility achieve commercial operation?  Is the applicant the original owner and operator?  ☐ Yes  ☐ No, identify previous owner and operator:			
(b) New Facility Has facility construction commenced?  Yes No What is the expected commercial in service date?			
(c) Existing Facility NOT in Commercial Service  What is the expected commercial in service date?  Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval.			
Building Permit (interior and exterior) - Under Review by City of Gatineau.			
Ministere des Foret, de la Faune et des Parcs, Ministere de L'environment et de la Lutte contre les changements climatiques,			
DFO, Transport Canada - Under Review by each regulation			

## 11. Connection What is the voltage at the perimeter of the applicant's property from the output of the generation facility? 50 kV or less, proceed to section 11(a) greater than 50 kV, proceed to section 11(b) (a) The OEB Act defines a "distribution system" as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less. Describe the existing or future distribution system from the output of the generation facility to the connection point with the electricity distributor or to the connection point with the transmission system (e.g., length of line, transformers, etc.). Each G1, G2, G3 generator will be connected to the connection point via a 7.5/10MVA transformer and a 800m 15kV line. G4 generator will be connected to the connection point via a 9/12MVA transformer and a 800m 15kV line. Does (or will) the applicant own and/or operate the distribution system? ☐ Yes No, identify the owner and/or operator of the distribution system Hydro Ottawa Limited If yes, does the applicant own and/or operate the distribution system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid? ☐ Yes No, describe the purpose of the distribution system If the answer to the question above is no, the applicant may require a distribution licence. The application form can be found at www.oeb.ca. Does (or will) the distribution system connect the generation facility to an electricity distributor? Hydro Ottawa Limited Yes, identify the electricity distributor ☐ No, proceed to section 11(b)

(b) The OEB Act defines a "transmission system" as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission system from the output of the generation facility or applicant's distribution system to the connection point with the transmission network (e.g., length of line, transformers, etc.).

Not applicable - there is no "transmission system"

Does (or will) the applicant own and/or operate the transmission system?
☐ Yes
☐ No, identify the owner and/or operator of the transmission system
If yes, does the applicant own and/or operate the transmission system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?  Yes  No, describe the purpose of the transmission system

If the answer to the question above is no, the applicant may require a transmission licence. The application form can be found at <a href="https://www.oeb.ca">www.oeb.ca</a>.
