Dear Ms. Walli:

**Re: Alectra Utilities Corporation ("Alectra Utilities")  
Incentive Regulation Mechanism ("IRM") Application for 2020 Electricity  
Distribution Rates and Charges (OEB File No. EB-2019-0018)**

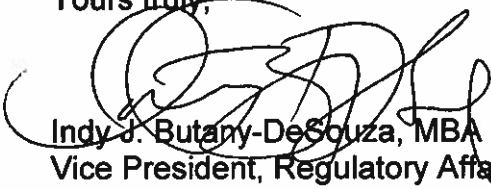

On May 28, 2019, Alectra Utilities Corporation ("Alectra Utilities") filed an electricity distribution rate application with the Ontario Energy Board ("OEB" or "Board") for approval of proposed rates and other charges in the Brampton, Enersource, Guelph, Horizon Utilities and PowerStream Rate Zones effective January 1, 2020. As part of the application, Alectra Utilities filed its first five-year Distribution System Plan ("DSP") on an integrated basis for its entire service area. Alectra Utilities also requested approval for capital funding based on a rate-adjustment mechanism that reconciles the capital needs set out in the DSP with the capital-related revenue in rates, and associated 2020 to 2024 capital riders for each rate zone.

Alectra Utilities hereby requests an opportunity to present an overview of the application (an "Evidence Presentation") to be scheduled prior to the interrogatory stage of the proceeding. As the application contains several unique elements and includes a significant volume of material, Alectra Utilities believes that scheduling a Presentation Day early in the proceeding would assist the OEB, OEB staff and intervenors by facilitating their efficient review of the application.

Alectra Utilities proposes that the Presentation Day be transcribed and form part of the record of the proceeding, and that questions during the Evidence Presentation be limited to the OEB Panel. OEB staff and intervenors will have an opportunity to ask questions through interrogatories and in any oral hearing that may follow.

Should you have any questions, please do not hesitate to contact the undersigned.

Yours truly,

Indy J. Butany-DeSouza, MBA  
Vice President, Regulatory Affairs
