I can say that I speak for many, many citizens that under the control of Alectra, (service Area) we urge the board not to allow any Rate Increase from Them, it is offensive that they want to increase rates when almost all of us are having more and more difficulties making a living and Alectra Employees and Managers are making very, very good money every month, if they Need money first let all the Managers and CEO and CFO's take a pay cut of % 5, the biggest expense in any business is wages and all companies first cut wages and lay off employees, Force ALECTRA to take a PAY CUT and Lay off employees after they do that then they can come to us the people and ask for a rate increase, Please do not give them permission to increase prices, much less now that the stability of Canada is not good with all the trade disputes going on with the USA and China
