

Enbridge Gas Inc.

**Application for certificates of public convenience and
necessity for Norfolk County, the County of Elgin,
and the County of Middlesex**

**PROCEDURAL ORDER NO. 10
July 12, 2019**

On October 11, 2018, the Ontario Energy Board (OEB) issued a Decision and Order to amend each of Enbridge Gas Inc.'s (Enbridge Gas) and EPCOR Natural Gas Limited Partnership's (ENGLP) certificate authorizations within Norfolk County, the County of Elgin and the County of Middlesex (the Counties) such that the service territories of the two utilities will be exclusive of each other.

The OEB directed both utilities to file draft orders for certificates for Norfolk County, as well as for each of the lower-tier municipalities in the County of Elgin and the County of Middlesex where both utilities have infrastructure. The draft orders were to include the metes and bounds information of each utility's infrastructure, described in lots and concessions, and customer density maps with boundaries delineating these areas.

Although progress had been made towards resolving a number of inconsistencies and overlap issues, the OEB found that it was unable to satisfactorily amend each of the utility's certificate authorizations within the Counties on the evidence provided by the parties to date. The OEB issued Procedural Order No. 9 on June 17, 2019, which ordered both utilities to provide infrastructure maps to assist the OEB in making a determination as to the metes and bounds of the areas to be granted, and scheduled an untranscribed technical conference to be held on August 12, 2019.

On July 9, 2019, ENGLP filed a letter requesting that the technical conference be rescheduled to the week of August 19, 2019 or to a later date suitable to the OEB, stating that key members of ENGLP's mapping team were unavailable the week of August 12, 2019.

The OEB will accept ENGLP's request to reschedule the technical conference to August 19, 2019. The OEB considers it necessary to make provision for the following matters related to this proceeding. The OEB may issue further procedural orders from time to time.

IT IS THEREFORE ORDERED THAT:

1. A technical conference will be held on **August 19, 2019** starting at 9:30 a.m. at 2300 Yonge Street, 25th floor, Toronto, Ontario to clarify any questions or issues that OEB staff or the surveyor may have regarding Enbridge Gas and ENGLP's infrastructure maps filed on July 22, 2019.

All filings with the OEB must quote the file number **EB-2017-0108**, and be made through the OEB's web portal at <https://www.pes.oeb.ca/eservice/>, and consist of two paper copies and one electronic copy in searchable / unrestricted PDF format. Filings must be received by the OEB by 4:45 p.m. on the stated date. Parties should use the document naming conventions and document submission standards outlined in the RESS Document Guideline found at www.oeb.ca. If the web portal is not available, parties may e-mail their documents to the attention of the Board Secretary at BoardSec@oeb.ca.
