I would like to start this message by challenging the OEB to request a full audit of Alectra's financial operations, specifically to identify mispending and to find the finances they already have available to pay for these needs, BEFORE approving any more reckless changes that drop these outrageous increases again into the laps of the struggling customers who already can't afford their hydro bills and costs. I feel this increase is ridiculous and unfair. The current rates are already so that most people are already struggling with their hydro bills. There is no increase available on the Energy Support credits most people already are relying on for help, and now on the monthly billing
