**Re: Independent Electricity System Operator
2019 Expenditure and Revenue Requirement Submission
Ontario Energy Board File No: EB-2019-0002**

The Independent Electricity System Operator (IESO) is writing to file the settlement proposal for the 2019 Revenue Requirement Submission with the Ontario Energy Board (OEB). The parties to the proceeding reached settlement on the issues, with the exception of Issues 1.1, 1.3, 2.1 (partial settlement), 1.4, 4.1, 4.2, 5.2, 6.1, 6.2, 6.3, (collectively, the “Unsettled Issues”).

The IESO respectfully requests two weeks to update the application evidence with respect to the Unsettled Issues, specifically due to the stopping of further work on the current High Level Design for the Incremental Capacity Auction as part of the Market Renewal Program. The IESO will continue to enable the initiatives contained within the Energy work stream of the Market Renewal Program.

The IESO proposes that the OEB allow for written interrogatories on the updated application evidence prior to any submissions on whether to proceed by way of an oral or written hearing.

Sincerely,

Senior Manager, Regulatory Affairs
