Dear Mr. Stiers:

**Re: Enbridge Gas Inc.
2019 Federal Carbon Pricing Program Application
Ontario Energy Board File Number: EB-2018-0205**

The Ontario Energy Board (OEB) issued its Decision and Order in the above noted proceeding on July 4, 2019. In its Decision and Order, the OEB directed that Enbridge Gas Inc. (Enbridge Gas) include the following bill message for a period of six months:

“The Federal Carbon Charge on this bill relates to the federal carbon pricing program.”¹

On August 6, 2019, Enbridge Gas contacted OEB staff to seek direction as to whether its Storage and Transportation and Direct Purchase bills were required to include the above bill message. Enbridge Gas indicated that these customers will not have any Federal Carbon Charge line item on their invoices as unregulated services are not subject to the Federal Carbon Pricing Program levy.

The OEB confirms that the direction to include the bill message for a period of six months applies only to customers that are being charged the Federal Carbon Charge for their individual consumption.

Yours truly,
