Dear Ms. Walli,

RE: Consultation to Review Natural Gas Supply Plans (EB-2019-0137)

Ag Energy Co-operative Ltd. (AEC) is an Ontario based co-operative that serves more than 370 agri-member-owners. We are a services-based co-operative that provides natural gas and electricity commodity solutions to its members and customers and were incorporated over 30 years ago. As a co-operative, our primary purpose is to service the needs of our membership. Our members are owners of the co-operative, and as such, the consumers and the retailer are one in the same.

We are a strong advocate for our members and customers, and we intend to participate in this consultation in order to protect their interests. AEC has members and customers of the co-operative who receive their natural gas from Enbridge Gas Inc. The outcome of this consultation has the potential to impact the natural gas market in Ontario.

AEC hereby gives notice of its intention to participate and appear at all phases of the consultation, including participating in the Stakeholder meeting remotely. We request that the Ontario Energy Board, Enbridge Gas Inc., and all other parties involved provide copies of all materials and correspondence related to this consultation.
