Dear Ms. Walli:

Re: EB-2019-0137 Consultation to Review Natural Gas Supply Plans

I am a consultant to the Consumers Council of Canada ("Council"). I have been instructed by my client to indicate our intent to participate in the consultation process initiated by the Ontario Energy Board ("OEB") to review Enbridge Gas Distribution Inc.'s ("EGI") five-year natural gas supply plan. The Council is a public-interest entity which represents the interests of residential consumers in Ontario. The outcome of this process will ultimately impact the natural gas bills of residential consumers.

On December 10, 2018, the Council filed with the Board, pursuant to Rule 22.03 of the Ontario Energy Board's Rules of Practice and Procedure, a document describing the Council, its mandate and objectives, membership, the constituency represented, and the types of activities the Council carries out. In addition, we provided a list of the individuals authorized to represent the Council in Board proceedings.

The nature and scope of the Council's intended participation in the consultation will be the following:

1. To provide written questions to EGI regarding the its plan;
2. To prepare for and attend the Stakeholder Meeting on September 23, 2019; and
3. To provide comments to the OEB following the meeting on the requested topics.

The Council will participate in any other phases of the consultation process.

The Council intends to ask for an order of costs in this proceeding. The Council has participated in many natural gas proceedings and consultation processes over a long period of time. In all of those proceedings and consultation processes the Council has been recognized as being eligible for an award of costs. In the absence of an award of costs the Council would be unable to participate in this process.

Copies of all correspondence related to this process should be sent to:

Please let us know if any further information from the Council is required at this time.

Yours truly,
