Re: Hydro One Networks Inc. Request for an Extension to File Technical Conference Undertaking Responses

On May 30, 2019, the Ontario Energy Board (OEB) issued Procedural Order (PO) No. 1 in this proceeding, which stated in part that any technical conference undertakings were to be filed with the OEB no later than August 19, 2019.

The technical conference took place on August 12th and 13th, 2019. On August 15, 2019, Hydro One Networks (Hydro One) filed a letter with the OEB requesting a change in the date for the filing of responses to technical conference undertakings from August 19, 2019 to August 28, 2019.

Hydro One justified its request on the basis that during the technical conference it had agreed to provide numerous undertakings, some of which are complex and require a substantial amount of work.

Hydro One stated that it would however work to respond to undertakings in as timely a manner as possible and would provide the undertaking responses in relation to information sought by OEB staff on behalf of Pacific Economics Group as soon as possible and likely by August 19, 2019. Hydro One also noted that it expected to file many of the remaining undertaking responses by August 21, 2019, with the more time consuming and complex responses filed by August 28, 2019.

The OEB grants Hydro One's request as the OEB considers it justified due to the circumstances outlined by Hydro One. All other dates established in PO No. 1 remain unchanged.

Yours truly,
