Subject: The End To Seasonal Rates [CSE: L8rtTx, TKT: xLWKAo]

Dear Sir or Madam

Where can I get more information on the benefits to be derived by cottage owners with the elimination of seasonal Hydro One electricity rates? What advantage does Hydro One and the OEB derive from this change to the seasonal rate structure? Why does the OEB think the elimination of seasonal electricity rates is such a great idea? How does the elimination of seasonal rates make Hydro One more effective and cost efficient in its production and delivery of electricity to all of its customers? Thank you.

Kindest regards,

Mike Whitfield
