## **DECISION AND ORDER**

**EB-2019-0168**

## **NRSTOR CLEAR CREEK LP**

**Application for Electricity Storage Licence**

**BY DELEGATION, BEFORE: Brian Hewson**  
Vice President,  
Consumer Protection & Industry Performance

---

**September 5, 2019**

**DECISION AND ORDER**

NRStor Clear Creek LP (NRStor Clear Creek) filed an application on July 3, 2019 under section 60 of the *Ontario Energy Board Act, 1998* (OEB Act) for an electricity storage licence.

NRStor Clear Creek was founded in March 2019 to acquire, own and operate a 5 MW flywheel/battery hybrid storage facility known as Clear Creek FW-BESS Hybrid project, which was originally built in 2013 by Hydro One Networks Inc. as a demonstration site to test flywheel technology operations. The facility is expected to be operational in 2020.

This Decision and Order is being issued by the Delegated Authority, pursuant to Section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

After considering the application and assessing technical capability and financial viability of the applicant, the OEB finds that it is in the public interest to grant the application and issue the electricity storage licence to NRStor Clear Creek LP.

**IT IS ORDERED THAT:**

1. The application is granted, on such conditions as are contained in the attached licence.

**DATED** at Toronto September 5, 2019

**ONTARIO ENERGY BOARD**
