Dear Ms. Walli,

**Re: EB-2018-0325 - Update on Hydro One Remote Communities Inc. ("Hydro One Remotes")
Licence Amendment to Include the Community of Pikangikum in its Service Territory**

Dear Ms. Walli:

As you are aware, the community of Pikangikum was connected to the greater Ontario electrical grid in December of 2018. Driven by an emergency situation within the community's electrical system, Hydro One Remotes has been providing reduced services until such time as the conditions precedent outlined in the transfer agreement are met.

We are pleased to inform the OEB that the conditions precedent outlined in the asset transfer agreement have now been satisfied. Since the transfer conditions are fully met, the cost of power billing will cease, normal customer billing and regularly expected service including connections will proceed. The official transfer to full service was August 14, 2019.

Hydro One Remotes is excited to be Pikangikum's service provider and we look forward to providing the community the electrical utility service it needs and desires.

Hydro One Remotes considers the licence amendment to include the community of Pikangikum in its service territory complete and further updates will not be provided. Should the OEB require additional information, please do not hesitate to contact us.

Sincerely,

ORIGINAL SIGNED BY FRANK D'ANDREA
