ONTARIO ENERGY BOARD

Dear Ms. Marconi:

EB-2004-0476 - Hydro One Networks' Section 92 Niagara Reinforcement Project – Project In-Service

On July 8, 2005 the Ontario Energy Board approved Hydro One Networks Inc.'s ("Hydro One") Leave to Construct Application to construct transmission facilities in the Niagara Region, comprising a new 76 kilometer double circuit 230 kilovolt transmission line and upgrades to the Middleport Transformer Station (Niagara Reinforcement Project "NRP"). Appendix A, Section 2.6 of that Decision and Order requires that Hydro One provide written confirmation of the completion of Project construction.

Hydro One confirms that the NRP was placed in-service on August 30, 2019 with all major construction completed.

Sincerely,

A handwritten signature in black ink, appearing to read "Joanne Richardson", written over a horizontal line.

Joanne Richardson
