On September 10, 2019, the Ontario Energy Board (OEB) issued a Decision on Cost Eligibility in respect of the Distributed Energy Resources Connections Review Initiative, approving cost eligibility for a number of stakeholders and denying it for others.

The following day, the OEB received a late request for cost eligibility from the Building Owners and Managers Association, Greater Toronto (BOMA). No objections to the request have been received from electricity distributors, who will be responsible for paying any costs awarded in this consultation.

Even though BOMA's request for cost eligibility was submitted well past the deadline of August 26, 2019, the OEB will approve it. The OEB is satisfied that BOMA, which represents a segment of electricity ratepayers, meets the eligibility criteria set out in the OEB's *Practice Direction on Cost Awards*.

Participants in this consultation are reminded of the importance of adhering to OEB-imposed deadlines.
