Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
2300 Yonge Street  
Suite 2701  
Toronto, ON M4P 1E4

Dear Ms. Walli:

**Re: OEB File No. EB-2019-0032  
ENWIN Utilities Ltd. Application for Approval of Distribution Rates and  
Other Charges Effective January 1, 2020  
Settlement Proposal**

Pursuant to Procedural Order No. 3, please find enclosed ENWIN Utilities Ltd.'s ("ENWIN") Settlement Proposal.

Filed concurrently with the Settlement Proposal are the following documents, which are being filed with the consent of the parties to this proceeding:

- ENWIN's Responses to Pre-Settlement Conference Clarification Questions
- A Cost Allocation Model, Revenue Requirement Work Form and Tariff Schedule and Bill Impact Model that depict an illustrative scenario where the Large Use 3TS and Ford Annex rate classes are combined, but the GS 50 - 4,999 and Intermediate rate classes are maintained separately
- A Bill Impact Summary Schedule that summarizes the illustrative bill impacts of ENWIN's proposal for elimination of the Ford Annex and Intermediate rate classes, and the above illustrative scenario

There is information redacted in "Appendix F – Draft Accounting Order Incremental Distribution Revenue Earned from a Lost Customer" of the Settlement Proposal ("**Appendix F**"). The redactions have been limited to information explicitly identifying a customer. Such information includes the name of the customer, address, account number, and rate class. Disclosure of this redacted information could reasonably be expected to prejudice significantly the competitive position of, prejudice the economic interest of, and be injurious to the financial interest of the customer.

According to the Ontario Energy Board's ("OEB" or the "Board") *Practice Direction on Confidential Filings*<sup>1</sup> ("Practice Direction"), the Practice Direction recognizes that the above is among the factors that the Board will take into consideration when addressing the confidentiality of filings. They are also addressed in subsection 17(1) of the Freedom of Information and Protection of Privacy Act ("FIPPA"), and the Practice Direction notes (at Appendix C of the Practice Direction) that third party information as described in subsection 17(1) of FIPPA is among the types of information previously assessed or maintained by the Board as confidential.

In addition, the parties to the proceeding have consented to the unredacted information being filed in confidence.

In keeping with the requirements of the Practice Direction, ENWIN is filing two confidential unredacted versions of Appendix F in hard copy only. The unredacted versions of the document has been placed in a sealed envelope marked "Confidential". The document is marked "Confidential", and ENWIN has identified the portions of the documents in respect of which confidentiality is claimed through the use of sidebars ("|") and printed on yellow paper. ENWIN requests that the unredacted document be kept confidential

Yours very truly,

**BORDEN LADNER GERVAIS LLP**

**ENWIN Utilities Ltd.  
EB-2019-0032  
Settlement Proposal**

**Filed with OEB: September 24, 2019**

ENWIN Utilities Ltd. (the “Applicant” or “ENWIN Utilities”) filed a cost of service application with the Ontario Energy Board (the “OEB”) on April 26, 2019 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B) (the “Act”), seeking approval for changes to the rates that ENWIN Utilities charges for electricity distribution and other charges, to be effective January 1, 2020. (OEB Docket Number EB-2019-0032) (the “Application”).

The OEB issued and published a Notice of Hearing dated May 23, 2019, and Procedural Order No. 1 on June 21, 2019, the latter of which required the parties to the proceeding to develop a proposed issues list and scheduled a Settlement Conference for August 22 and 23, 2019.

ENWIN Utilities filed its interrogatory responses with the OEB on August 1, 2019, pursuant to which ENWIN Utilities updated several models and submitted them to the OEB as Excel documents. On August 14, 2019, following the interrogatories, Ontario Energy Board staff (“OEB staff”) submitted a proposed issues list as agreed to by the parties. On August 20, 2019 the OEB issued its decision on the proposed issues list, approving the list submitted by OEB staff (the “Issues List”). This Settlement Proposal is filed with the OEB in connection with the Application and is organized in accordance with the Issues List.

A settlement conference was convened on August 22, 2019 and continued to August 23, 2019, in accordance with the OEB’s *Rules of Practice and Procedure* (the “Rules”) and the OEB’s *Practice Direction on Settlement Conferences* (the “Practice Direction”).

Jennifer Webster acted as facilitator for the settlement conference which lasted for two days.

ENWIN Utilities and the following intervenors (the “Intervenors”), participated in the settlement conference:

School Energy Coalition (“SEC”);  
Vulnerable Energy Consumers Coalition (“VECC”);  
Consumers Council of Canada (“CCC”); and  
Association of Major Power Consumers in Ontario (“AMPCO”).

ENWIN Utilities and the Intervenors are collectively referred to below as the “Parties”.

OEB staff also participated in the settlement conference. The role adopted by OEB staff is set out in page 5 of the Practice Direction. Although OEB staff is not a party to this Settlement Proposal, as noted in the Practice Direction, OEB staff who did participate in the settlement conference are bound by the same confidentiality requirements that apply to the Parties to the proceeding.

This document is called a “Settlement Proposal” because it is a proposal by the Parties to the OEB to settle the issues in this proceeding. It is termed a proposal as between the Parties and the OEB. However, as between the Parties, and subject only to the OEB’s approval of this Settlement Proposal, this document is intended to be a legal agreement, creating mutual obligations, and binding and enforceable in accordance with its terms. As set forth later in this Preamble, this agreement is subject to a condition subsequent, that if it is not accepted by the OEB in its entirety, then unless amended by the Parties it is null and void and of no further effect. In entering into this agreement, the Parties understand and agree that, pursuant to the Act, the OEB has exclusive jurisdiction with respect to the interpretation and enforcement of the terms hereof.

The Parties acknowledge that this settlement proceeding is confidential in accordance with the Practice Direction. The Parties understand that confidentiality in that context does not have the same meaning as confidentiality in the OEB’s Practice Direction on Confidential Filings, and the rules of that latter document do not apply. Instead, in this settlement conference, and in this Agreement, the Parties have interpreted “confidential” to mean that the documents and other information provided during the course of the settlement proceeding, the discussion of each issue, the offers and counter-offers, and the negotiations leading to the settlement – or not – of each issue during the settlement conference are strictly privileged and without prejudice. None of the foregoing is admissible as evidence in this proceeding, or otherwise, with one exception, the need to resolve a subsequent dispute over the interpretation of any provision of this Settlement Proposal. Further, the Parties shall not disclose those documents or other information to persons who were not attendees at the settlement conference. However, the Parties agree that “attendees” is deemed to include, in this context, persons who were not physically in attendance at the settlement conference but were a) any persons or entities that the Parties engage to assist them with the settlement conference, and b) any persons or entities from whom they seek instructions with respect to the negotiations; in each case provided that any such persons or entities have agreed to be bound by the same confidentiality provisions.

This Settlement Proposal provides a brief description of each of the settled and partially settled issues, as applicable, together with references to the evidence. The Parties agree that references to the “evidence” in this Settlement Proposal shall, unless the context otherwise requires, include (a) additional information included by the Parties in this Settlement Proposal, (b) the Appendices to this document, and (c) the evidence filed concurrently with this Settlement Proposal (with the Parties’ consent) titled “Responses to Pre-Settlement Clarification Questions” (“Clarification Responses”). The supporting Parties for each settled and partially settled issue, as applicable, agree that the evidence in respect of that settled or partially settled issue, as applicable, is sufficient in the context of the overall settlement to support the proposed settlement, and the sum of the evidence in this proceeding provides an appropriate evidentiary record to support acceptance by the OEB of this Settlement Proposal.

There are Appendices to this Settlement Proposal which provide further support for the proposed settlement. The Parties acknowledge that the Appendices were prepared by ENWIN Utilities. While the Intervenor has reviewed the Appendices, the Intervenor is relying on the accuracy of the underlying evidence in entering into this Settlement Proposal.

Outlined below are the final positions of the Parties following the settlement conference. For ease of reference, this Settlement Proposal follows the format of the final approved issues list for the Application attached to the Issues List Decision dated August 20, 2019.

The Parties are pleased to advise the OEB that they have reached agreement with respect to all but one issue in this proceeding. The remaining issue is only partially settled. The unresolved matter pertains to ENWIN Utilities' proposal to eliminate the intermediate rate class, and transfer those customers into the existing GS 50 – 4,999 kW rate class. The Parties have recommended procedural steps under Issue 3.3 to resolve this issue.

Certain information in this Settlement Proposal (such as Table B (Summary of Bill Impacts), Table 3.2A (Revenue to Cost Ratios) and Table 3.3A (2020 Proposed Distribution Charges)) assumes the Board accepts ENWIN Utilities' proposal on the partially settled issue. This information is included for information purposes only, in order to illustrate the impact of the Settlement Proposal on the balance of the Application, and is without prejudice to the Parties' right to take any position they choose on the partially settled issue. Aspects of the Settlement Proposal that are dependent upon the partially settled issue will be updated once this issue has been resolved by way of a Board Decision.

A summary of the status of the issues in this proceeding is provided below:

|  |   |
|--|---|
| <b>“Complete Settlement”</b> means an issue for which complete settlement was reached by all Parties, and if this Settlement Proposal is accepted by the OEB, the Parties will not adduce any evidence or argument during the oral hearing in respect of these issues.   | # issues settled:<br><b>13</b>          |
| <b>“Partial Settlement”</b> means an issue for which there is partial settlement, as ENWIN Utilities and the Intervenor who take any position on the issue were able to agree on some, but not all, aspects of the particular issue. If this Settlement Proposal is accepted by the OEB, the Parties who take any position on the issue will only adduce evidence and argument during the hearing on those portions of the issues not addressed in this Settlement Proposal. | # issues partially settled:<br><b>1</b> |
| <b>“No Settlement”</b> means an issue for which no settlement was reached. ENWIN Utilities and the Intervenor who take a position on the issue will adduce evidence and/or argument at the hearing on the issue.   | # issues not settled:<br><b>None</b>    |

According to the Practice Direction (p. 3), the Parties must consider whether a Settlement Proposal should include an appropriate adjustment mechanism for any settled issue that may be affected by external factors. These adjustments are specifically set out in the text of the Settlement Proposal.

The Parties have settled the issues as a package, and none of the parts of this Settlement Proposal are severable. If the OEB does not accept this Settlement Proposal in its entirety, then there is no settlement (unless the Parties agree in writing that any part(s) of this Settlement Proposal that the OEB does accept may continue as a valid settlement without inclusion of any part(s) that the OEB does not accept).

In the event that the OEB directs the Parties to make reasonable efforts to revise the Settlement Proposal, the Parties agree to use reasonable efforts to discuss any potential revisions, but no Party will be obligated to accept any proposed revision. The Parties agree that all of the Parties who took on a position on a particular issue must agree with any revised Settlement Proposal as it relates to that issue prior to its resubmission to the OEB.

Unless stated otherwise, the settlement of any particular issue in this proceeding and the positions of the Parties in this Settlement Proposal are without prejudice to the rights of Parties to raise the same issue and/or to take any position thereon in any other proceeding, whether or not ENWIN Utilities is a party to such proceeding.

Where in this Agreement, the Parties “Accept” the evidence of ENWIN Utilities, or the Parties or any of them “agree” to a revised term or condition, including a revised budget or forecast, then unless the Agreement expressly states to the contrary, the words “for the purpose of settlement of the issues herein” shall be deemed to qualify that acceptance or agreement.

## SUMMARY

In reaching this partial settlement, the Parties have been guided by the Filing Requirements for 2020 rates, the approved issues list attached as Schedule A to the OEB's Issues List Decision of August 20, 2019, and the Report of the OEB titled *Renewed Regulatory Framework for Electricity Distributors: A Performance-Based Approach* dated October 18, 2012 ("RRFE").

This Settlement Proposal reflects a settlement of all but one issue in this proceeding. The Parties believe that, if accepted by the Board as the Parties request, this Settlement Proposal will narrow the scope of issues to be heard during a hearing.

The sole outstanding issue relates to a part of Issue 3.3 (Rate Design). The Parties were unable to agree on the following outstanding issue:

***Is ENWIN Utilities' proposal to eliminate the intermediate rate class appropriate?***

The Parties have included a proposal on how to address this outstanding issue under Issue 3.3 below.

For presentation purposes only, other issues, such as Issues 3.1 (Load / Customer forecast and billing determinants), 3.2 (Cost Allocation and Revenue-to-Cost Ratios), 3.4 (Retail Transmission Service Rates) and 4.2 / 4.3 (Deferral and variance accounts disposition), which are dependant on the outcome of the outstanding issue, have been shown for illustrative purposes only assuming the Applicant's proposal is accepted. The Parties agree that these may need to be adjusted following the Board's determination on the outstanding issue.

ENWIN Utilities has made changes to the Revenue Requirement as depicted below in Table A.

**Table A: Revenue Requirement Summary**

| Revenue Requirement |   |                      |                         |                    |                      |            |  |                  |

The Bill Impacts as a result of ENWIN Utilities' proposal are summarized in Table B. The Parties agree that Table B may change again to reflect the impact of the ultimate disposition of partially settled issue that has yet to be determined by the Board.

**Table B: Summary of Bill Impacts**

| Bill Impacts  |                                      |        |  |               |       |
|---|--------------------------------------|--------|--|---------------|-------|
| Rate Class  | Distribution (Fixed & Volumetric)    |        |  |               |       |
|   | Sub-Total A (Excluding Pass Through) |        |  | Total Bill    |       |
|   | \$                                   | %      |  | \$            | %     |
| RESIDENTIAL SERVICE CLASSIFICATION - RPP                                | -\$ 1.38                             | -4.9%  |  | -\$ 1.41      | -1.3% |
| GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION - RPP            | -\$ 4.67                             | -6.9%  |  | -\$ 5.41      | -1.9% |
| GENERAL SERVICE 50 to 4,999 kW SERVICE CLASSIFICATION - Non-RPP (Other) | -\$ 103.58                           | -9.0%  |  | -\$ 524.89    | -4.8% |
| LARGE USE - REGULAR SERVICE CLASSIFICATION - Non-RPP (Other)            | -\$ 5,731.21                         | -20.7% |  | -\$ 30,733.07 | -4.7% |
| LARGE USE - 3TS SERVICE CLASSIFICATION - Non-RPP (Other)                | \$ 9,638.33                          | 12.1%  |  | \$ 14,940.60  | 1.2%  |
| UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION - RPP                   | -\$ 4.14                             | -1.7%  |  | -\$ 5.64      | -0.6% |
| SENTINEL LIGHTING SERVICE CLASSIFICATION - RPP                          | -\$ 0.14                             | -0.6%  |  | -\$ 0.12      | -0.2% |
| STREET LIGHTING SERVICE CLASSIFICATION - Non-RPP (Other)                | -\$ 8,892.13                         | -12.1% |  | -\$ 11,728.75 | -9.6% |

The impact of the settlement agreement with regards to Capital Expenditures and OM&A Expenses results in an estimated Efficiency Assessment of 9.95% below predicted costs using the PEG forecasting model provided by the OEB as can be seen in Table C.

There has been an improvement in benchmarking efficiency from the 2018 Actual to the 2020 test year of 7.25%, with a three-year average performance of -5.18%. In the 2020 test year, ENWIN Utilities is forecast to maintain its stretch factor group 3 ranking.

The Parties believe that the partially settled issue can be resolved by way of a written hearing, and that no oral hearing is required if this Settlement Proposal is accepted.

Based on the foregoing, and the evidence and rationale provided below, the Parties agree that this Settlement Proposal is appropriate and recommend its acceptance by the OEB. Please refer to Appendix A for the schedule of draft tariffs resulting if this settlement is accepted by the OEB. Appendix A assumes the partially settled issue is resolved as proposed by ENWIN Utilities.

This Settlement Proposal reflects the Parties' agreement on an effective date for new rates of January 1, 2020.

**1.0 Planning**  
**1.1 Capital**

*Is the level of planned capital expenditures appropriate and is the rationale for planning and pacing choices appropriate and adequately explained, giving due consideration to:*

- *customer feedback and preferences*
- *productivity*
- *benchmarking of costs*
- *reliability and service quality*
- *impact on distribution rates*
- *trade-offs with OM&A spending*
- *government-mandated obligations*
- *the objectives of ENWIN Utilities and its customers*
- *the distribution system plan*
- *the business plan*

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to adjust its 2020 rate base and test year capital plan to reflect the following changes:

- ENWIN Utilities agrees to reduce its forecast 2019 net capital expenditures by \$2,910,000. This would result in ENWIN Utilities adjusting its 2020 opening gross fixed asset balance to \$327,197,537. The reduction reflects a shift of \$2,200,000 from 2019 capital expenditures to 2020 capital expenditures to account for works on the Rhodes building being delayed. The amount reflects a further reduction of \$710,000 on other 2019 capital expenditures.
- ENWIN Utilities further agrees to reduce its test year net capital expenditures by \$1,608,000. This would result in ENWIN Utilities adjusting its 2020 net Capital Expenditures to \$18,343,000. This amount can be seen in Appendix B – Capital Expenditure Summary to this settlement agreement. Total 2020 Capital Expenditures is comprised of a \$2,200,000 increase resulting from shifting 2019 capital expenditures to 2020 capital expenditures for the Rhodes building works. The 2020 Capital Expenditures reflect a further reduction of \$3,808,000 on other 2020 capital expenditures to smooth the pattern of capital expenditures over the 5-year future period covered in the Distribution System Plan. This amount is detailed in Appendix B – Capital Expenditure Summary.
- ENWIN Utilities has allocated the reductions as follows:
  - 2019: \$(710,000) System Renewal; \$(2,200,000) General Plant.
  - 2020: \$(477,000) System Access; \$(2,831,000) System Renewal; \$1,700,000 General Plant.
- Parties acknowledge that ENWIN Utilities is at liberty to manage the reductions as it sees fit given the actual operating conditions and needs of the company.

ENWIN Utilities also agrees that it will continue to enhance its processes to provide further evidence demonstrating the link between the condition of its assets and the pace of its capital investment plan in its next cost of service or Custom IR application. Furthermore, ENWIN Utilities agrees that it will begin to more fully track the number of assets replaced per year by asset type and the costs to do so, and will provide this information in its next cost of service or Custom IR application.

With the above adjustments, and for the purposes of settlement of all the issues in this proceeding, the Parties accept that the level of planned capital expenditures and the rationale for planning and pacing choices are appropriate and adequately explained, giving due consideration to:

- The customer feedback and preferences as more fully detailed in Exhibit 1 at Section 1.7, Attachment 1-F, Attachment 1-G and Appendix 2-AC and in Exhibit 2 at Attachment 2-A, Sections 5.2.1 (b), 5.4 (a) and Appendix B;
- The past and planned productivity initiatives of ENWIN Utilities as more fully detailed in Exhibit 1 at Attachment 1-A and Attachment 1-L and Exhibit 2 at Attachment 2-A, Sections 5.2.1 (c) and 5.2.3;
- ENWIN Utilities' benchmarking performance as more fully detailed in Exhibit 1 at Section 1.8, Attachment 1-H and Attachment 1-I and Exhibit 2 at Attachment 2-A, Section 5.2.3;
- ENWIN Utilities' past reliability and service quality performance as well as ENWIN Utilities' targets for performance in the test year as more fully detailed in Exhibit 1 at Section 1.8 and Attachment 1-H and Exhibit 2 at Attachment 2-A, Section 5.2.3;
- The total impact on distribution rates, as more fully detailed in Appendix D to this settlement agreement;
- The settlement on OM&A as described under issue 1.2 of this Settlement Proposal;
- ENWIN Utilities' performance meeting government mandated obligations as more fully detailed in Exhibit 1, Attachment 1-A;
- ENWIN Utilities' objectives and those of its customers as more fully detailed in Exhibit 1, Section 1.2.2, Section 1.7 and Attachment 1-A and Exhibit 2, Attachment 2-A, Section 5.3.1 (a);
- ENWIN Utilities' distribution system plan as more fully detailed in Exhibit 2, Attachment 2-A; and
- ENWIN Utilities' business plan as more fully detailed in Exhibit 1, Attachment 1-A.

Appendix B of this Settlement Proposal provides an updated OEB Appendix 2-AB to reflect this settlement. Appendix C of this Settlement Proposal provides an updated OEB Appendix 2-BA 2019 and 2020 Fixed Asset Continuity Schedule to reflect this settlement.

**Evidence:**

*Application:* Exhibit 1, Sections 1.6.2.4, 1.6.4 and Attachment 1-A; Exhibit 2 in its entirety including Attachments; ENWIN\_2020 Chapter\_2\_Appendices\_20190426.

*IRRs:* AMPCO – 2 to 34; CCC - 2, 3, 5, 10, 19; SEC – 1, 2, 4, 5, 7 to 22; VECC – 1, 4 to 14; OEB Staff – 3, 7, 9 to 18, 20 to 29, 31 to 70; ENWIN\_IRR\_2020 Chapter\_2\_Appendices\_Updated\_20190801.

*Clarification Responses:* Appendix A – OEB Staff Pre-Settlement Conference Clarification Questions 1 to 11; Appendix B –SEC Pre-Settlement Conference Clarification Questions 1 to 3, 5.

**Supporting Parties:** All

## 1.2 OM&A

*Is the level of planned OM&A expenditures appropriate and is the rationale for planning choices appropriate and adequately explained, giving due consideration to:*

- *customer feedback and preferences*
- *productivity*
- *benchmarking of costs*
- *reliability and service quality*
- *impact on distribution rates*
- *trade-offs with capital spending*
- *government-mandated obligations*
- *the objectives of ENWIN Utilities and its customers*
- *the distribution system plan*
- *the business plan*

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to reduce its proposed OM&A expenses in the test year by \$1,250,000 to \$28,097,816. ENWIN Utilities has allocated the \$1,250,000 reduction to Administrative and General Costs - Administrative & Human Resources Expenses. Parties acknowledge that ENWIN Utilities is at liberty to manage the reduction as it sees fit given the actual cost pressures faced by the company.

Based on the foregoing and the evidence filed by ENWIN Utilities, the Parties agree that the level of planned OM&A expenditures and the rationale for planning and pricing choices are appropriate and adequately explained, giving due consideration to:

- The customer feedback and preferences as more fully detailed in Exhibit 1 at Section 1.7, Attachment 1-F, Attachment 1-G and Appendix 2-AC and in Exhibit 2 at Attachment 2-A, Sections 5.2.1 (b), 5.4 (a) and Appendix B;
- The past and planned productivity initiatives of ENWIN Utilities as more fully detailed in Exhibit 1 at Appendix 2-C and Exhibit 2 at Attachment 2-A, Sections 5.2.1 (c) and 5.2.3;
- ENWIN Utilities' benchmarking performance as more fully detailed in Exhibit 1 at Section 1.8, Attachment 1-H and Attachment 1-I and Exhibit 2 at Attachment 2-A, Section 5.2.3;
- ENWIN Utilities' past reliability and service quality performance as well as ENWIN Utilities' targets for performance in the test year as more fully detailed in Exhibit 1 at Section 1.8 and Attachment 1-H and Exhibit 2 at Attachment 2-A, Section 5.2.3;
- The total impact on distribution rates, as more fully detailed in Appendix D to this Settlement Proposal;
- The settlement on OM&A as described under issue 1.2 of this Settlement Proposal;
- ENWIN Utilities' performance meeting government mandated obligations as more fully detailed in Exhibit 1, Attachment 1-A;

- ENWIN Utilities' objectives and those of its customers as more fully detailed in Exhibit 1, Section 1.2.2, Section 1.7 and Attachment 1-A and Exhibit 2, Attachment 2-A, Section 5.3.1 (a);
- ENWIN Utilities' distribution system plan as more fully detailed in Exhibit 2, Attachment 2-A; and
- ENWIN Utilities' business plan as more fully detailed in Exhibit 1, Attachment 1-A.

ENWIN Utilities' OM&A Expenses are summarized in Table 1.2 below.

As shown in Table 1.2 below, Total 2020 Settlement Test Year OM&A Expenses have increased at a compound annual growth rate of 3.16% compared to 2009 Actuals, and increased by 5.90% compared to 2018 Actuals.

**Table 1.2**  
**Appendix 2-JA**

## 2.0 Revenue Requirement

### 2.1 Are all elements of the Revenue Requirement reasonable, and have they been appropriately determined in accordance with OEB policies and practices?

**Complete Settlement:** The Parties agree that all elements of the Base Revenue Requirement have been correctly determined in accordance with OEB policies and practices. Specifically:

- a) *Rate Base:* The Parties agree that the rate base calculations, as updated to reflect this Settlement Proposal (including the change to opening rate base noted in issue 1.1 above), are reasonable and have been appropriately determined in accordance with OEB policies and practices.
- b) *Working Capital:* The Parties agree that the working capital calculations, as updated to reflect this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices.
- c) *Cost of Capital:* The Parties agree that the cost of capital calculations, as updated to reflect this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices. The Parties agree that the Cost of Capital will be updated to reflect the new OEB parameters as they become available.
- d) *Other Revenue:* For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to increase its forecasted Other Revenue by \$117,000 to account for the increased shared service revenues from its affiliate at the Rhodes drive building following the renovation, as shown in Table 2.2I below. The Parties agree that the other revenue calculations, as updated to reflect this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices.
- e) *Depreciation:* The Parties agree that the depreciation calculations, as updated to reflect this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices.
- f) *Taxes:* The Parties agree that the PILs calculations, as updated to reflect this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices. The PILs workform reflecting this Settlement Proposal is provided as part of the supporting material in file named “ENWIN 2020 COS PILs\_Workform\_Settlement\_20190924.xlsx”.

### Evidence:

*Application:* Exhibit 1, Sections 1.6.1; Exhibit 2, Sections 2.1, 2.2, 2.3 and 2.5; Exhibit 4; Exhibit 5; Exhibit 6; ENWIN\_2020\_Rev\_Reqt\_Work\_Form\_20190426.  
*IRRs:* SEC - 23; VECC - 4, 22, 36; OEB Staff - 1, 8, 82 to 86, 105, 112 to 114, 120, 122; ENWIN\_IRR\_2020\_Rev\_Reqt\_Work\_Form\_Updated\_20190801.  
*Appendices to this Settlement Proposal:* Appendix B - OEB Appendix 2-AB Capital Expenditure Summary; Appendix C - OEB Appendix 2-BA 2019 and 2020 Fixed Asset Continuity Schedule; Appendix E - Revenue Requirement Workform.

*Settlement Models:* ENWIN 2020 COS

Conference Clarification Question 6; Appendix C – VECC Pre-Settlement

Conference Clarification Question 53.

**Supporting Parties:** All

## 2.2 Has the Revenue Requirement been accurately determined based on these elements?

**Complete Settlement:** Subject to the adjustments expressly noted in this Settlement Proposal, the Parties agree that the proposed Revenue Requirement has been accurately determined in the Appendices.

The elements of Revenue Requirement are detailed in Tables 2.2A to 2.2J below.

**Table 2.2A**

**Supporting Parties: All**

### 3.0 Load Forecast, Cost Allocation and Rate Design

#### 3.1 Are the proposed load and customer forecast, loss factors, CDM adjustments and resulting billing determinants appropriate, and, to the extent applicable, are they an appropriate reflection of the number and energy and demand requirements of ENWIN Utilities' customers?

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to establish a new variance account to record any incremental distribution revenue arising from a specific large use customer that has announced the closure of its operations in 2020. This customer's forecasted load has been removed from ENWIN Utilities' 2020 load forecast (see Appendix 1 to ENWIN's August 1, 2019 Interrogatory Response cover letter). The Parties agree that the identity of this large use customer should remain confidential, as together with this customer's consumption and distribution revenue, the information could be considered commercially sensitive. For this reason, the the draft accounting order for this new variance account is being filed in confidence. A redacted version has been included as Appendix F to this Settlement Proposal.

Subject to the resolution of any unsettled issues and the creation of this new variance account as described above, the Parties agree that the customer forecast, load forecast, loss factors, CDM adjustments and the resulting billing determinants are appropriate and are reflective of the energy and demand requirements of the ENWIN Utilities' customers.

The agreed to load and customer forecast is presented below as Table 3.1A (which, for illustrative purposes only, assumes the elimination of the intermediate class is approved):

**Table 3.1A**

Clarification Questions 49 to 52, 54.

**Supporting Parties:** All

**3.2** Are the proposed cost allocation methodology, allocations, and revenue-to-cost ratios appropriate?

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to maintain the fixed charge for the GS 50-4,999 kW rate class at the current level as the charge is already above the Board's policy ceiling.

Subject to the resolution of any unsettled issues and the adjustments expressly noted in this Settlement Proposal, the Parties agree that the cost allocation methodology is appropriate and results in revenue-to-cost ratios that are within the OEB's permitted ranges.

These revenue-to-cost ratios are reproduced below in Table 3.2A (which, for illustrative purposes only, assumes the elimination of the intermediate class is approved by the Board).

**Table 3.2A**  
**Revenue to Cost Ratios**

|                     | Revenue to Cost Ratios        |                                 |                 |

### Supporting Parties: All

- 3.3** Are ENWIN Utilities’ proposals for rate design, including the elimination of the intermediate rate class and the Large Use-Ford Annex rate class, appropriate?

**Partial Settlement:** Subject to the adjustments expressly noted in this Settlement Proposal, the Parties agree that the proposal for rate design, including the elimination of the Large Use-Ford Annex rate class, is appropriate.

However, the Parties are unable to agree that the proposed elimination of the intermediate rate class is appropriate.

Table 3.3A shows the proposed 2020 distribution charges resulting from this settlement, assuming for illustrative purposes only, that ENWIN Utilities’ proposal to eliminate the intermediate rate class is accepted by the Board.

**Table 3.3A**  
**2020 Proposed Distribution Charges**

| Distribution Rates  |                               |                        |                   |                         |                   |                        |                   |                                      |                   |

Parties also agree to the elimination of ENWIN Utilities’ Standby Power Service Classification.

### Evidence:

*Application:* Exhibit 1, Section 1.6.7.1; Exhibit 8; ENWIN\_2020\_Rev\_Reqt\_Work\_Form\_20190426.

*IRRs:* AMPCO – 46, 47; CCC – 11, 20; SEC – 33; VECC – 37, 38, 40, 42 to 45; OEB Staff – 2, 115; ENWIN\_IRR\_2020\_Rev\_Reqt\_Work\_Form\_Updated\_20190801.

*Appendices to this Settlement Proposal:* None.

*Settlement Models:* ENWIN 2020 COS Rev\_Reqt\_Work\_Form\_Settlement\_20190924.

*Clarification Responses:* Appendix A – OEB Staff Pre-Settlement Conference Clarification Question 16; Appendix C – VECC Pre-Settlement Conference Clarification Questions 58 to 60.

General Issue (All aspects of ENWIN Utilities' Rate Design Proposal other than the elimination of the Ford Annex and Intermediate rate classes):

**Supporting Parties:** All

Specific Issue (Ford Annex and Intermediate rate class eliminations):

**Supporting Parties (on the elimination of the Ford Annex Rate Class only):** ENWIN Utilities, AMPCO

**No Position (on the elimination of the Ford Annex Rate Class only):** CCC, SEC, VECC

**Outstanding Issue:**

The Parties were unable to agree on the following outstanding issue:

***Is ENWIN Utilities' proposal to eliminate the intermediate rate class appropriate?***

The Parties propose that a written hearing would be the most efficient means to resolve ENWIN's proposal for elimination of the intermediate rate class.

The Parties suggest for consideration the following timeline (building on the timeline set out in Procedural Order No. 3) as one option to efficiently address this sole outstanding issue:

1. ENWIN Utilities would file its written argument-in-chief explaining why it seeks to eliminate the intermediate class by October 4, 2019;
2. Intervenors and Board Staff would file submissions on appropriateness of ENWIN Utilities' proposal to eliminate the intermediate class by October 16, 2019; and
3. ENWIN Utilities would file its reply submissions by October 25, 2019.

### 3.4 Are the proposed Retail Transmission Service Rates appropriate?

**Complete Settlement:** Subject to the resolution of any unsettled issues, the Parties agree that the proposed Retail Transmission Service Rates (RTSRs) are appropriate. The proposed RTSRs have been updated to reflect the Board's approval of 2019 Uniform Transmission Rates on July 25, 2019 (EB-2019-0164).

The Retail Transmission Service Rates have been reproduced below in Table 3.4 (assuming, for illustrative purposes only, that ENWIN Utilities' proposal to eliminate the intermediate class is accepted).

**Table 3.4**  
**Retail Transmission Service Rates (RTSR)**

| RTSRs  |  |        |                              |
|--|--|--------|------------------------------|
| Rate Class   | Rate Description   | Unit   | Proposed RTSR-<br>Network    |
| RESIDENTIAL SERVICE CLASSIFICATION                     | Retail Transmission Rate - Network Service Rate                            | \$/kWh | 0.0087                       |
| GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION | Retail Transmission Rate - Network Service Rate                            | \$/kWh | 0.0080                       |
| GENERAL SERVICE 50 to 4,999 kW SERVICE CLASSIFICATION  | Retail Transmission Rate - Network Service Rate                            | \$/kW  | 2.7166                       |

*Settlement Models:* ENWIN 2020 COS\_RTSR\_Workform\_Settlement\_20190924.

*Clarification Responses:* None.

#### Supporting Parties: All

#### **4.0 Accounting**

- 4.1** Have all impacts of any changes in accounting standards, policies, estimates and adjustments been properly identified and recorded, and is the rate-making treatment of each of these impacts appropriate?

**Complete Settlement:** The Parties agree that the impacts of any changes in accounting standards, policies, estimates and adjustments have been properly identified, and the treatment of each of these impacts is appropriate.

**Evidence:**

*Application:* Exhibit 1, Sections 1.6.2, 1.9.2 (and Attachment 1-K), 1.9.7, 1.9.9; Exhibit 2, Sections 2.1.1; Exhibit 9, Section 9.2.5.

*IRRs:* CCC - 1; SEC - 26; VECC - 24; OEB Staff - 6, 10, 11, 19, 97, 124, 126, 127, 128.

*Appendices to this Settlement Proposal:* None.

*Settlement Models:* None.

*Clarification Responses:* Appendix A – OEB Staff Pre-Settlement Conference Clarification Question 2.

**Supporting Parties:** All

**4.2** Are ENWIN Utilities' proposals for deferral and variance accounts (excluding Account 1575), including the balances in the existing accounts and their disposition, the continuation of existing accounts and the request of new accounts appropriate?

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to the following adjustments:

- a) Group 1 - Account # 1588 - RSVA<sub>POWER</sub> – adjusted by \$23,484.44 to reflect embedded generator cost of power as more fully set out in Clarification Responses Appendix A – OEB Staff Clarification Question 19.
- b) Group 2 – Account # 1508 - Other Regulatory Assets – Other, the Productivity Initiatives Deferral Account, the balance of this account was reduced by \$310,500, which reflects the Parties agreement to exclude recovery of \$295,500 for Stratejm cybersecurity information and event management and \$15,000 for SpringBoard single utility (see also response to interrogatory SEC-34). No new amounts will be recorded in this account and it will be closed upon final disposition of the balance.
- c) Group 2 – New 1508 Subaccount – Other Regulatory Assets, SCP Gains Deferral Account – the account will capture 50% of the Actual Gain on sale of the Ouellette Facility. The other 50% of the Actual Gain will be allocated to ENWIN Utilities' affiliated water utility to reflect that water customers have also historically contributed to a proportionate share of the costs of the Ouellette Facility, including operating costs, depreciation and a return on asset charge. Parties agree that water customers should be allocated an equal share of the proceeds upon disposition.

Subject to the resolution of any unsettled issues and the adjustments expressly noted in this Settlement Proposal, together with the creation of the new variance account specified in the settlement of issue 3.1 above, the Parties agree that ENWIN Utilities' proposals for deferral and variance accounts (excluding Account 1575), including the balances in the existing accounts (and forecasted amounts, where applicable) and their disposition, the continuation of existing accounts and the request for new accounts are appropriate. A summary of ENWIN Utilities' updated requests for new deferral accounts, continuation of existing accounts and the closing of existing accounts is provided in Table 4.2 below:

**Table 4.2**  
**DVA Summary**

| DVA Account Status  |  |   |  |

*Clarification Responses:* None.

**Supporting Parties:** All

**5.2** Is the proposed Gross Load Billing for Retail Transmission Rates – Line and Transformation Connection Service Rates appropriate?

**Complete Settlement:** For the purposes of the settlement of all but the outstanding issue in this proceeding, ENWIN Utilities agrees to update the wording for the proposed Gross Load Billing for Retail Transmission Rates – Line and Transformation Connection Service Rates to match the wording approved by the Ontario Energy Board in its recent decision for Energy+ Inc. in EB-2018-0028 as follows:

**Gross Load Billing Note**

The Billing Demand for Line and Transformation Connection Services is defined as the Non-Coincident Peak demand (MW) in any hour of the month. The customer demand in any hour is the sum of (a) the loss adjusted demand supplied from the distribution system plus (b) the demand that is supplied by embedded generation installed after October 30, 1998, which have installed capacity of 2MW or more for renewable generation and 1 MW or higher for nonrenewable generation. The term renewable generation refers to a facility that generates electricity from the following sources: wind, solar, Biomass, Bio-oil, Bio-gas, landfill gas, or water. The demand supplied by embedded generation will not be adjusted for loss.

Subject to this update, the Parties agree that ENWIN Utilities' proposed Gross Load Billing for Retail Transmission Rates – Line and Transformation Connection Service Rates is appropriate.

**Evidence:**

*Application:* Exhibit 8, Section 8.4.2.

*IRRs:* CCC – 20, VECC – 43.

*Appendices to this Settlement Proposal:* Appendix A - Proposed Tariff of Rates and Charges.

*Settlement Models:* ENWIN 2020 COS\_Tariff\_Schedule\_and\_Bill\_Impact\_Model\_Settlement\_20190924.

*Clarification Responses:* None.

**Supporting Parties:** All

**5.3** Is the proposed effective date (i.e. January 1, 2020) for 2020 rates appropriate?

**Complete Settlement:** The Parties agree that the proposed effective date of January 1, 2020 is appropriate.

**Evidence:**

*Application:* Exhibit 1, Section 1.4.8 and 1.4.14.

*IRRs:* None.

*Appendices to this Settlement Proposal:* Appendix A - Proposed Tariff of Rates and Charges.

*Settlement Models:* ENWIN 2020 COS\_Tariff\_Schedule\_and\_Bill\_Impact\_Model\_Settlement\_20190924.

**RESIDENTIAL SERVICE CLASSIFICATION**

A customer qualifies for residential rate classification if their service is a 120/240 V single-phase supply to a single family dwelling, duplex, triplex, 4-plex or 6-plex, townhome or multi-unit - individually metered apartment, located on a parcel of land zoned by the City of Windsor Building Department for domestic or household purposes and where the customer uses the dwelling as a home. Where a customer operates an advertised business from a building that may or may not be used as a dwelling, EnWin Utilities Ltd. may elect to deem that the customer's rate class will be General Service. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

**APPLICATION**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

## GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

A non-residential customer qualifies for a rate classification of General Service Less Than 50 kW if within the last 12 months its monthly average peak demand load has not exceeded 50 kW or for a new customer is not expected to exceed 50 kW. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

EB-2019-0032

## GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

A non-residential customer qualifies for a rate classification of General Service 50 to 4,999 kW if within the last 12 months its monthly average peak demand load has equaled or exceeded 50 kW or for a new customer is expected to equal or exceed 50 kW but be less than 5,000 kW. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

## LARGE USE - REGULAR SERVICE CLASSIFICATION

A customer is in the regular large use rate class when its monthly peak load, averaged over 12 consecutive months, is equal to or greater than 5,000 kW. The premises for this class of customer is predominantly used for large industrial or institutional purposes located on a parcel of land occupied by a single customer. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

## LARGE USE - 3TS SERVICE CLASSIFICATION

This classification applies to a customer whose monthly peak load, averaged over 12 consecutive months, is equal to or greater than 5,000 kW and the premise is serviced by a dedicated Transformer Station. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

## RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

|  |          |           |
|--|----------|-----------|
| One-time charge, per retailer, to establish the service agreement between the distributor and the retailer   | \$       | 101.20    |
| Monthly fixed charge, per retailer   | \$       | 40.48     |
| Monthly variable charge, per customer, per retailer  | \$/cust. | 1.01      |
| Distributor-consolidated billing monthly charge, per customer, per retailer  | \$/cust. | 0.61      |
| Retailer-consolidated billing monthly credit, per customer, per retailer   | \$/cust. | (0.61)    |
| Service Transaction Requests (STR)   |          |           |
| Request fee, per request, applied to the requesting party  | \$       | 0.51      |
| Processing fee, per request, applied to the requesting party   | \$       | 1.01      |
| Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party |          |           |
| Up to twice a year   | \$       | no charge |
| More than twice a year, per request (plus incremental delivery costs)  | \$       | 4.05      |
| Notice of switch letter charge, per letter (unless the distributor has opted out of applying the charge as per the Ontario Energy Board's Decision and Order EB-2015-0304, issued on February 14, 2019)  | \$       | 2.02      |

## LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

|   |        |
|---|--------|
| Total Loss Factor - Secondary Metered Customer < 5,000 kW | 1.0311 |
| Total Loss Factor - Secondary Metered Customer > 5,000 kW | 1.0145 |
| Total Loss Factor - Primary Metered Customer < 5,000 kW   | 1.0207 |
| Total Loss Factor - Primary Metered Customer > 5,000 kW   | 1.0045 |

## GROSS LOAD BILLING NOTE

The Billing Demand for Line and Transformation Connection Services is defined as the Non-Coincident Peak demand (MW) in any hour of the month. The customer demand in any hour is the sum of (a) the loss adjusted demand supplied from the distribution system plus (b) the demand that is supplied by embedded generation installed after October 30, 1998, which have installed capacity of 2MW or more for renewable generation and 1 MW or higher for non-renewable generation. The term renewable generation refers to a facility that generates electricity from the following sources: wind, solar, Biomass, Bio-oil, Bio-gas, landfill gas, or water. The demand supplied by embedded generation will not be adjusted for loss.

## Appendix B – OEB Appendix 2-AB Capital Expenditure Summary

Please see below for an updated Appendix 2-AB revised to reflect this Settlement Proposal.

### **Appendix D – Bill Impacts**

Please see below for updated Bill Impacts reflecting this Settlement Proposal.

## Tariff Schedule and Bill Impacts Model (2020 Cost of Service Filers)

The bill comparisons below must be provided for typical customers and consumption levels. Bill impacts must be provided for residential customers consuming 750 kWh per month and general service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW. Include bill comparisons for Non-RPP (retailer) as well. **To assess the combined effects of the shift to fixed rates and other bill impacts associated with changes in the cost of distribution service, applicants are to include a total bill impact for a residential customer at the distributor's 10th consumption percentile (In other words, 10% of a distributor's residential customers consume at or less than this level of consumption on a monthly basis). Refer to section 3.2.3 of the Chapter 3 Filing Requirements For Electricity Distribution Rate Applications.**

For certain classes where one or more customers have unique consumption and demand patterns and which may be significantly impacted by the proposed rate changes, the distributor must show a typical comparison, and provide an explanation.

Note:

1. For those classes that are not eligible for the RPP price, the weighted average price including Class B GA through end of May 2017 of \$0.1101/kWh (IESO's Monthly Market Report for May 2017, page 22) has been used to represent the cost of power. For those classes on a retailer contract, applicants should enter the contract price (plus GA) for a more accurate estimate. Changes to the cost of power can be made directly on the bill impact table for the specific class.

2. Please enter the applicable billing determinant (e.g. number of connections or devices) to be applied to the monthly service charge for unmetered rate classes in column N. If the monthly service charge is applied on a per customer basis, enter the number "1". Distributors should provide the number of connections or devices reflective of a typical customer in each class.

Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.

Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.

| Last Rebasing Year | <a href="#">2009</a>   |

The RRWF has been enhanced commencing with 2017 rate applications to provide estimated base distribution rates. The enhanced RRWF is not intended to replace a utility's formal rate generator model which should continue to be the source of the proposed rates as well as the final ones at the conclusion of the proceeding. The load forecasting addition made to this model is intended to be demonstrative only and does not replace the information filed in the utility's application. In an effort to minimize the incremental work required from utilities, the cost allocation and rate design additions to this model do in fact replace former appendices that were required to be filed as part of the cost of service (Chapter 2) filing requirements.

*This Workbook Model is protected by copyright and is being made available to you solely for the purpose of filing your application. You may use and copy this model for that purpose, and provide a copy of this model to any person that is advising or assisting you in that regard. Except as indicated above, any copying, reproduction, publication, sale, adaptation, translation, modification, reverse engineering or other use or dissemination of this model without the express written consent of the Ontario Energy Board is prohibited. If you provide a copy of this model to a person that is advising or assisting you in preparing the application or reviewing your draft rate order, you must ensure that the person understands and agrees to the restrictions noted above.*

*While this model has been provided in Excel format and is required to be filed with the applications, the onus remains on the applicant to ensure the accuracy of the data and the results.*

## Notes:

**General** Data inputs are required on Sheets 3. Data from Sheet 3 will automatically complete calculations on sheets 4 through 9 (Rate Base through Revenue Requirement). Sheets 4 through 9 do not require any inputs except for notes that the Applicant may wish to enter to support the results. Pale green cells are available on sheets 4 through 9 to enter both footnotes beside key cells and the related text for the notes at the bottom of each sheet.

<sup>(1)</sup> All inputs are in dollars (\$) except where inputs are individually identified as percentages (%)

<sup>(2)</sup> Data in column E is for Application as originally filed. For updated revenue requirement as a result of interrogatory responses, technical or settlement conferences, etc., use column M and Adjustments in column I

<sup>(3)</sup> Net of addbacks and deductions to arrive at taxable income.

<sup>(4)</sup> Average of Gross Fixed Assets at beginning and end of the Test Year

<sup>(5)</sup> Average of Accumulated Depreciation at the beginning and end of the Test Year. Enter as a negative amount.

<sup>(6)</sup> Select option from drop-down list by clicking on cell M10. This column allows for the application update reflecting the end of discovery or Argument-in-Chief. Also, the outcome of any Settlement Process can be reflected.

<sup>(7)</sup> Input total revenue offsets for deriving the base revenue requirement from the service revenue requirement

<sup>(8)</sup> 4.0% unless an Applicant has proposed or been approved for another amount.

<sup>(9)</sup> The default Working Capital Allowance factor is **7.5%** (of Cost of Power plus controllable expenses), per the letter issued by the Board on June 3, 2015. Alternatively, a WCA factor based on lead-lag study, with supporting rationale could be provided.

# Revenue Requirement Workform (RRWF) for 2020 Filers

## Load Forecast Summary

This spreadsheet provides a summary of the customer and load forecast on which the test year revenue requirement is derived. The amounts serve as the denominators for deriving the rates to recover the test year revenue requirement for purposes of this RRWF.

The information to be input is inclusive of any adjustments to kWh and kW to reflect the impacts of CDM programs up to and including CDM programs planned to be executed in the test year. i.e., the load forecast adjustments determined in **Appendix 2-I** should be incorporated into the entries. The inputs should correspond with the summary of the Load Forecast for the Test Year in **Appendix 2-IB** and in Exhibit 3 of the application.

**Appendix 2-IB** is still required to be filled out, as it also provides a year-over-year variance analysis of demand growth and trends from historical actuals to the Bridge and Test Year forecasts.

### Notes:

<sup>(1)</sup> Input kW or kVA for those customer classes for which billing is based on demand (kW or kVA) versus energy consumption (kWh)

Ontario Energy Board

# Revenue Requirement Workform (RRWF) for 2020 Filers

## Cost Allocation and Rate Design

This spreadsheet replaces **Appendix 2-P** and provides a summary of the results from the Cost Allocation spreadsheet, and is used in the determination of the class revenue requirement and, hence, ultimately, the determination of rates from customers in all classes to recover the revenue requirement.

Stage in Application Process: *Per Board Decision*

### A) Allocated Costs

| Name of Customer Class <sup>(3)</sup>      | Costs Allocated from<br>Previous Study <sup>(1)</sup> | %              | Allocated Class<br>Revenue Requirement <sup>(1)</sup> | %              |
|--|---|----------------|---|----------------|

- (1) Class Allocated Revenue Requirement, from Sheet O-1, Revenue to Cost || RR, row 40, from the Cost Allocation Study in this application. This excludes costs in deferral and variance accounts. For Embedded Distributors, Account 4750 - Low Voltage (LV) Costs are also excluded.
- (2) Host Distributors - Provide information on any embedded distributor(s) as a separate class, if applicable. If embedded distributors are billed in a General Service class, include the allocated costs and revenues of the embedded distributor(s) in the applicable class, and also complete Appendix 2-Q.
- (3) Customer Classes - If these differ from those in place in the previous cost allocation study, modify the customer classes to match the proposal in the current application as closely as possible.

**B) Calculated Class Revenues**

|    | Name of Customer Class | Load Forecast (LF) X              | LF X current                      | LF X Proposed Rates | Miscellaneous    |
|----|------------------------|-----------------------------------|-----------------------------------|---------------------|------------------|
|    |                        | current approved<br>rates<br>(7B) | approved rates X<br>(1+d)<br>(7C) | (7D)                | Revenues<br>(7E) |
| 1  | Residential            | \$ 25,557,896                     | \$ 25,778,281                     | \$ 25,778,281       | \$ 2,350,504     |
| 2  | GS <50                 | \$ 5,852,757                      | \$ 5,903,225                      | \$ 5,903,225        | \$ 355,374       |
| 3  | GS 50 - 4999 KW        | \$ 13,193,555                     | \$ 13,307,323                     | \$ 13,307,323       | \$ 655,438       |
| 4  | Large Use 3TS          | \$ 3,121,908                      | \$ 3,148,828                      | \$ 3,148,828        | \$ 538,804       |

| 14 |                        |                                   |                                   |                     |                  |
| 15 |                        |                                   |                                   |                     |                  |
| 16 |                        |                                   |                                   |                     |                  |
| 17 |                        |                                   |                                   |                     |                  |
| 18 |                        |                                   |                                   |                     |                  |
| 19 |                        |                                   |                                   |                     |                  |
| 20 |                        |                                   |                                   |                     |                  |
|    | <b>Total</b>           | \$ 50,898,610                     | \$ 51,337,508                     | \$ 51,337,508       | \$ 4,124,915     |

- (4) In columns 7B to 7D, LF means Load Forecast of Annual Billing Quantities (i.e., customers or connections, as applicable X 12 months, and kWh, kW or kVA as applicable. Revenue quantities should be net of the Transformer Ownership Allowance for applicable customer classes. Exclude revenues from rate adders and rate riders.
- (5) Columns 7C and 7D - Column Total should equal the Base Revenue Requirement for each.
- (6) Column 7C - The OEB-issued cost allocation model calculates "1+d" on worksheet O-1, cell C22. "d" is defined as Revenue Deficiency/Revenue at Current Rates.
- (7) Column 7E - If using the OEB-issued cost allocation model, enter Miscellaneous Revenues as it appears on worksheet O-1, row 19,

C) **Rebalancing Revenue-to-Cost Ratios**

|    | Name of Customer Class | Previously Approved Ratios | Status Quo Ratios | Proposed Ratios  | Policy Range |
|----|------------------------|----------------------------|-------------------|------------------|--------------|
|    |                        | Most Recent Year:          | (7C + 7E) / (7A)  | (7D + 7E) / (7A) |              |
|    |                        | 2011                       |                   |                  |              |
|    |                        | %                          | %                 | %                | %            |
| 1  | Residential            | 90.00%                     | 94.67%            | 94.67%           | 85 - 115     |
| 2  | GS <50                 | 105.00%                    | 116.30%           | 116.30%          | 80 - 120     |
| 3  | GS 50 - 4999 KW        | 80.00%                     | 106.96%           | 106.96%          | 80 - 120     |
| 4  | Large Use 3TS          | 102.00%                    | 92.70%            | 92.70%           | 85 - 115     |

| 6  | Street light           | 70.00%                     | 135.93%           | 120.00%          | 80 - 120     |
| 7  | Sentinel               | 70.00%                     | 97.20%            | 97.20%           | 80 - 120     |
| 8  | Unmetered              | 120.00%                    | 87.40%            | 89.63%           | 80 - 120     |
| 9  |                        |                            |                   |                  |              |
| 10 |                        |                            |                   |                  |              |
| 11 |                        |                            |                   |                  |              |
| 12 |                        |                            |                   |                  |              |
| 13 |                        |                            |                   |                  |              |
| 14 |                        |                            |                   |                  |              |
| 15 |                        |                            |                   |                  |              |
| 16 |                        |                            |                   |                  |              |
| 17 |                        |                            |                   |                  |              |
| 18 |                        |                            |                   |                  |              |
| 19 |                        |                            |                   |                  |              |
| 20 |                        |                            |                   |                  |              |

- (8) Previously Approved Revenue-to-Cost (R/C) Ratios - For most applicants, the most recent year would be the third year (at the latest) of the Price Cap IR period. For example, if the applicant, rebased in 2012 with further adjustments to move within the range over two years, the Most Recent Year would be 2015. However, the ratios in 2015 would be equal to those after the adjustment in 2014.
- (9) Status Quo Ratios - The OEB-issued cost allocation model provides the Status Quo Ratios on Worksheet O-1. The Status Quo means "Before Rebalancing".
- (10) Ratios shown in red are outside of the allowed range. Applies to both Tables C and D.

(D) **Proposed Revenue-to-Cost Ratios** <sup>(11)</sup>

| Name of Customer Class |                     | Proposed Revenue-to-Cost Ratio |                     |         | Policy Range |

| 17                     |                     |                                |                     |         |              |
| 18                     |                     |                                |                     |         |              |
| 19                     |                     |                                |                     |         |              |
| 20                     |                     |                                |                     |         |              |

(11) The applicant should complete Table D if it is applying for approval of a revenue-to-cost ratio in 2019 that is outside of the OEB's policy range for any customer class. Table D will show that the distributor is likely to enter into the 2020 and 2021 Price Cap IR models, as necessary. For 2020 and 2021, enter the planned revenue-to-cost ratios that will be "Change" or "No Change" in 2018 (in the current Revenue/Cost Ratio Adjustment Workform, Worksheet C1.1 'Decision - Cost Revenue Adjustment, column d), and enter TBD for class(es) that will be entered as 'Rebalance'.

Ontario Energy Board

# Revenue Requirement Workform (RRWF) for 2020 Filers

## New Rate Design Policy For Residential Customers

Please complete the following tables.

### A Data Inputs (from Sheet 10. Load Forecast)

| Test Year Billing Determinants for Residential Class |             |
|--|-------------|
| Customers  | 80,159      |
| kWh  | 590,649,150 |

|  |                  |
|--|------------------|
| Proposed Residential Class Specific Revenue Requirement <sup>1</sup> | \$ 25,778,281.28 |
|--|------------------|

| Residential Base Rates on Current Tariff |          |
|--|----------|
| Monthly Fixed Charge (\$)                | \$ 26.57 |
| Distribution Volumetric Rate (\$/kWh)    | \$ -     |

### B Current Fixed/Variable Split

|              | Base Rates | Billing Determinants | Revenue          | % of Total Revenue |
|--------------|------------|----------------------|------------------|--------------------|
| Fixed        | 26.57      | 80,159               | \$ 25,557,895.56 | 100.00%            |
| Variable     | 0          | 590,649,150          | \$ -             | 0.00%              |
| <b>TOTAL</b> | -          | -                    | \$ 25,557,895.56 | -                  |

### C Calculating Test Year Base Rates

|  |   |
|--|---|
| Number of Remaining Rate Design Policy Transition Years <sup>2</sup> | 0 |
|--|---|

|              | Test Year Revenue @ Current F/V Split | Test Year Base Rates @ Current F/V Split | Reconciliation - Test Year Base Rates @ Current F/V Split |
|--------------|---------------------------------------|--|---|
| Fixed        | \$ 25,778,281.28                      | 26.8                                     | \$ 25,779,134.40  |
| Variable     | \$ -                                  | 0  | \$ -  |
| <b>TOTAL</b> | \$ 25,778,281.28                      | -  | \$ 25,779,134.40  |

|              | New F/V Split | Revenue @ new F/V Split | Final Adjusted Base Rates | Revenue Reconciliation @ Adjusted Rates |
|--------------|---------------|-------------------------|---------------------------|---|
| Fixed        |               |                         |                           |   |
| Variable     |               |                         |                           |   |
| <b>TOTAL</b> | -             | \$ -                    | -                         |   |

| Checks <sup>3</sup>   |  |
|---|--|
| Change in Fixed Rate  |  |
| Difference Between Revenues @ Proposed Rates and Class Specific Revenue Requirement |  |

### Notes:

- <sup>1</sup> The final residential class specific revenue requirement, excluding allocated Miscellaneous Revenues, as shown on Sheet 11. Cost Allocation, should be used (i.e. the revenue requirement after any proposed adjustments to R/C ratios).
- <sup>2</sup> The distributor should enter the number of years remaining before the transition to fully fixed rates is completed. A distributor transitioning to fully fixed rates over a four year period and began the transition in 2016 would input the number "3" into cell D40. A distributor transitioning over a five-year period would input the number "4". Where the change in the residential rate design will result in the fixed charge increasing by more than \$4/year, a distributor may propose an additional transition year.
- <sup>3</sup> Change in fixed rate due to rate design policy should be less than \$4. The difference between the proposed class revenue requirement and the revenue at calculated base rates should be minimal (i.e. should be reasonably considered as a rounding error)

## Rate Design and Revenue Reconciliation

This sheet replaces Appendix 2-V, and provides a simplified model for calculating the standard and volumetric rates based on the allocated class revenues and fixed/variable split resulting from the cost allocation study and rate design as proposed by the applicant. However, the RRRWF does not replace the rate generator model that an applicant distributor may use in support of its application. The RRRWF provides a demonstrative check on the derivation of the revenue requirement and on the proposed base distribution rates to recover the revenue requirement, based on summary information from a more detailed rate generator model and other models that applicants use for cost allocation, load forecasting, taxes/PILS, etc.

[illegible]

<sup>1</sup> Transformer Ownership Allowance is entered as a positive amount, and only for those classes to which it applies.

<sup>2</sup> The Fixed/Variable split, for each customer class, drives the "rate generator" portion of this sheet of the RRWF. Only the "fixed" fraction is entered, as the sum of the "fixed" and "variable" portions must sum to 100%. For a distributor that may set the Monthly Service Charge, the "fixed" ratio is calculated as:  $\text{MSC} \times (\text{average number of customers or connections}) \times 12 \text{ months}) / (\text{Class Allocated Revenue Requirement})$ .

The first row shown, labelled "Original Application", summarizes key statistics based on the data inputs into the RRWF. After the original application filing, the applicant provides key changes in capital and operating expenses, load forecasts, cost of capital, etc., as revised through the processing of the application. This could be due to revisions or responses to interrogatories. The last row shown is the most current estimate of the cost of service data reflecting the original application and any updates provided by the applicant distributor (for updated evidence, responses to interrogatories, undertakings, etc.)

<sup>(1)</sup> Short reference to evidence material (interrogatory response, undertaking, exhibit number, Board Decision, Code, Guideline, Report of the Board, etc.)

## Summary of Proposed Changes

[illegible]

**Appendix F – Draft Accounting Order – Incremental Disitrubtion Revenue Earned From  
a Lost Customer**

# DRAFT

## ENWIN Utilities Ltd.

### DEFERRAL ACCOUNT FOR INCREMENTAL DISTRIBUTION REVENUE EARNED FROM A LOST CUSTOMER

#### DRAFT ACCOUNTING ORDER

The purpose of this account is to record any incremental distribution revenue earned from a specific large use customer. This customer is expected to cease operations in 2020, and their associated load has been removed from the 2020 test year load forecast for the purposes of setting 2020 distribution rates.

The following ENWIN accounts are associated with the lost customer:

A table with two columns and two rows of data, all of which have been completely redacted with black boxes. The table structure is visible with vertical and horizontal lines, but no text is legible.

Distribution revenue shall encompass revenue earned from the application of ENWIN's approved Monthly Service charges and Distribution Volumetric charges to the above accounts.

ENWIN will establish the following deferral accounts to record the amounts described above:

- Account 1508, Other Regulatory Assets, Subaccount Deferred Lost Customer Distribution Revenue
- Account 1508, Other Regulatory Assets, Subaccount Deferred Lost Customer Distribution Revenue Carrying Charges

Carrying charges will apply to the opening balances in the account (exclusive of accumulated interest) at the OEB-prescribed interest rates for deferral and variance accounts. The effective date of the account would be January 1, 2020 and would not be closed until disposition of the account is approved by the Ontario Energy Board on a final basis. ENWIN will apply for disposition of the account in a future proceeding once the lost customer has fully ceased operations and the final balance in the account has been audited.

The sample accounting entries for the deferral accounts are provided below.

# DRAFT

- A. Record deferred distribution revenue earned from the lost customer:
  - DR Account 4080 Distribution Service Revenue
  - CR Account 1508 Other Regulatory Assets, Subaccount Deferred Lost Customer Distribution Revenue
  
- B. Record the carrying charges based on the net of the balances in Account 1508 Other Regulatory Assets, Subaccount Deferred Lost Customer Distribution Revenue. The carrying charges are determined using simple interest applied on the monthly net opening balances:
  - DR Account 6035 Other Interest Expense
  - CR Account 1508, Other Regulatory Assets, Subaccount Deferred Lost Customer Distribution Revenue Carrying Charges

**Appendix G – Draft Accounting Order – Gain on Sale of Property Related to the  
Company’s Site Consolidation Plan (SCP)**

# DRAFT

## ENWIN Utilities Ltd.

### DEFERRAL ACCOUNT FOR GAINS ON SALE OF PROPERTY RELATED TO THE COMPANY'S SITE CONSOLIDATION PLAN (SCP)

#### DRAFT ACCOUNTING ORDER

The purpose of this account is to capture 50% of the Actual Gain on sale of the Ouellette Facility. The other 50% of the Actual Gain will be allocated to ENWIN's affiliated water utility.

The Actual Gain on the sale of the property is defined as the proceeds from the sale of the land and building, minus the closing costs, minus the net book value.

ENWIN will establish the following deferral accounts to record the amounts described above:

- Account 1508, Other Regulatory Assets, Subaccount SCP Gains Deferral Account
- Account 1508, Other Regulatory Assets, Subaccount SCP Gains Deferral Account Carrying Charges

Carrying charges will apply to the opening balances in the account (exclusive of accumulated interest) at the OEB-prescribed interest rates for deferral and variance accounts. The effective date of the account would be the date establishment of the account is approved by the Ontario Energy Board, and would not be closed until disposition of the account is approved by the Ontario Energy Board on a final basis. ENWIN will apply for disposition of the account in a future proceeding once the amount of the Actual Gain has been determined on a final basis upon completion of the sale, and the balance in the account has been audited.

The sample accounting entries for the deferral accounts are provided below.

- A. Record 50% of the Actual Gain to be cleared to customers through a rate rider:
  - DR Account 4355 Gain on Disposition of Utility and Other Property
  - CR Account 1508, Other Regulatory Assets, Subaccount SCP Gains Deferral Account
- B. Record the carrying charges based on the net of the balances in Account 1508, Other Regulatory Assets, Subaccount SCP Gains Deferral Account. The carrying charges are determined using simple interest applied on the monthly net opening balances:
  - DR Account 6035 Other Interest Expense
  - CR Account 1508, Other Regulatory Assets, Subaccount SCP Gains Deferral Account Carrying Charges
