

Intervenor status for application #EB-2018-0329.

As Spokesperson for the Jackfish Metis Community based in Schreiber, Ontario, our Community wishes to participate in the LNG project for the towns of Marathon, Manitouwadge, Terrace Bay, Schreiber and Wawa. We have many citizens in some of these towns and we believe that we need to have our voices heard about this matter.

My name is Jon MacDonald, 107 Galena Street, Box 146 in Schreiber, Ontario. POT 2S0.

Jonmac1@shaw.ca 1-807-824-3158

We feel as though our community members may be affected physically and also with accessibility. Also, potential work camps could affect the environment of which we continue to struggle to protect. There may also be potential work for citizens who would apply for employment.

Our participation would be of a minor nature and also go a long way to provide inclusiveness and understanding for our aboriginal citizens.

If travel is necessary and/or office duties pertaining to the project become an issue, we do hope that compensation for these things will be provided by your agency.

To date, we have not been consulted as an indigenous Community, therefore several members are concerned with the word inclusive.

We also hope that expenses which may be involved for various reasons, may be recovered from the project partners/government, as we are a not for profit volunteer based Community.

Thank you!

Jon MacDonald,
Jackfish Metis Community
Zone II representative;
OCIP
