Transitional Capacity Auction (TCA) Proposed Market Rules and Market Manuals – June14, 2019

Introduction – Dale Fitzgerald, IESO

The IESO welcomed the participants on the webinar and introduced the first webinar presenter- Anna Lafoyiannis.

Responses to May 22nd Stakeholder Feedback – Anna Lafoyiannis, IESO

The IESO thanked the participants for joining the webinar to review stakeholder feedback received on the draft Market Rules and Market Manuals and outlined the meeting objectives. There after led the stakeholders through stakeholder feedback received specific to Phase I and Phase II changes.

There were no comments or questions received.

Items Outside the TCA Engagement – David Short, IESO

The IESO led the stakeholders through feedback received on items that will be addressed outside of the TCA Engagement. The items included proposals being addressed by the DRWG and other miscellaneous items.

A participant asked what will be provided to stakeholders in late August/early September?

The IESO replied the draft design document for the June 2020 auction. The document will list more details on design features.

A participant asked will the June 2020 draft auction design document provide guidance on expected future changes in subsequent auctions?

The IESO replied no, the design document will focus on the June 2020 auction. A document outlining the transition from DR to TCA to ICA has taken longer than expected to produce but will be posted on the engagement page in the near future. For the December 2020 auction, a separate design discussion/decision will take place with stakeholders.

Next Steps

The IESO thanked participants for joining the webinar and for their continuous time and feedback for Phase I. The IESO then outlined the upcoming deadlines for the Market Rules and Market Manuals. Stakeholder Engagement for Phase II will begin in Q3 2019.
