**Re: Association of Major Power Consumers in Ontario – EB-2019 – 0242
Intervention Request**

Dear Ms. Walli:

On behalf of the members of Advanced Energy Management Alliance (“AEMA”), I have been instructed to request intervenor status in the above proceeding commenced by the Association of Major Power Consumers in Ontario (“AMPCO”) for review and issuance of an order revoking amendments to the market rules made by the Independent Electricity System Operator (“IESO”) and referring the amendments back to the IESO for further consideration.

AEMA is a North American trade association whose members include distributed energy resources, demand response (“DR”), and advanced energy management service and technology providers, as well as some of Ontario’s largest consumer resources, who support advanced energy management solutions due to the electricity cost savings those solutions provide to their businesses.

AEMA members are IESO market participants who are active in the Demand Response Auction and have an interest in the outcome of this proceeding. The scope of AEMA’s participation in the proceeding will be dependent on the how the hearing progresses, as any changes to the market rules for the Demand Response Auction and the upcoming Capacity Auction may have the potential to impact AEMA members.

AEMA does not require hard copies of the materials and will not be seeking an award of costs.

The name and email addresses of individuals who should be included are:
