**Re: Resolute FP Canada Inc – EB-2019 – 0206 – Intervention Request**

Dear Ms. Walli:

On behalf of the members of Advanced Energy Management Alliance (“AEMA”), I have been instructed to intervene in the Resolute FP Canada Inc.’s proceeding for an order directing the Independent Electricity System Operator to amend the Market Rules relating to the qualifications for participating in Demand Response Auctions.

AEMA is a North American trade association whose members include distributed energy resources, demand response (“DR”), and advanced energy management service and technology providers, as well as some of Ontario’s largest consumer resources, who support advanced energy management solutions due to the electricity cost savings those solutions provide to their businesses.

AEMA members are IESO market participants who are active in the Demand Response Auction and have interest in the outcome of this proceeding. The scope of participation will be dependent on the how the hearing progresses, as any changes to the qualification process in the Demand Response Auction (and the upcoming Capacity Auction) may have the potential to impact AEMA members.

AEMA does not require hard copies of the materials and will not be seeking an award of costs.

The name and email addresses of individuals who should be included are:
