**FILED ELECTRONICALLY**

Ontario Energy Board  
2300 Yonge Street, 27<sup>th</sup> Floor  
P.O. Box 2319  
Toronto, Ontario M4P 1E4

**Attention:** Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**RE: The Association of Major Power Consumers in Ontario (“AMPCO”) Application Pursuant to Section 33 of *Electricity Act*, 1998  
Case Number EB-2019-0242  
Capital Power Corporation (“Capital Power”) Request for Intervenor Status**

On September 26, 2019, AMPCO applied to the Ontario Energy Board (“OEB” or “Board”) for an order to revoke amended market rules implementing the Independent Electricity System Operator’s (“IESO”) Transitional Capacity Auction (“TCA”) and to stay the operation of these rules pending completion of the Board’s review. The OEB issued a *Notice of Application* on October 1, 2019 inviting interested parties to indicate whether they wish to participate. Capital Power, therefore, requests intervenor status in this proceeding.

Capital Power is an active participant in Ontario’s wholesale electricity market with commercial interests that include ownership and operation of several existing generating facilities as well as the potential development of new projects in the Province. These interests stand to be directly impacted as the Board’s decision may materially alter the structure and function of both the TCA and subsequent IESO processes designed to procure capacity for Ontario’s resource adequacy needs.

Capital Power currently intends on monitoring the proceeding but reserves the right to make submissions addressing issues it deems material to its interests. Capital Power takes no position on whether the process ought to be oral or written and is not seeking cost award at this time.

Please direct all correspondence respecting this matter to the following individuals:
