Ontario Energy Board
2300 Yonge Street, 27th Floor
P.O. Box 2319
Toronto, Ontario M4P 1E4

Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**RE: PF Resolute Canada Inc (“Resolute”) Application Pursuant to Section 35 of *Electricity Act*, 1998
Case Number EB-2019-0206
Capital Power Corporation (“Capital Power”) Request for Intervenor Status**

On August 7, 2019, Resolute applied to the Ontario Energy Board (“OEB” or “Board”) for an order directing the Independent Electricity System Operator (“IESO”) to amend market rules addressing the qualifications for participating in Demand Response Auctions. The OEB issued a *Notice of Application* on October 1, 2019 inviting interested parties to indicate whether they wish to participate. Capital Power, therefore, requests intervenor status in this proceeding.

Capital Power is an active participant in Ontario’s wholesale electricity market with commercial interests that include ownership and operation of several existing generating facilities as well as the potential development of new projects in the Province. These interests stand to be directly impacted as the Board’s decision may materially affect the governance framework and controls supporting the IESO’s rulemaking function, the execution of which is critical to the performance and functioning of the IESO-administered market.

Capital Power currently intends on monitoring the proceeding but reserves the right to make submissions addressing issues it deems material to its interests. Capital Power takes no position on whether the process ought to be oral or written and is not seeking cost award at this time.

Please direct all correspondence respecting this matter to the following individuals:
