Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
27-2300 Yonge Street  
Toronto, ON M4P 1E4

Dear Ms. Walli:

**Re: EB-2018-0264: EPCOR Natural Gas Limited Partnership (EPCOR), South Bruce Rates Application – Response to Letter on Behalf of IGUA**

---

This correspondence is in response to the letter filed on behalf of the Industrial Gas Users Association (IGUA), dated October 30, 2019 (Response Letter).

The Response Letter states that prior to EPCOR filing responses to written interrogatories, "...information on the allocation of the subject asset classes to the 4 proposed rate classes was not on the record, and thus obviously could not be further explored."<sup>1</sup> We would like to take this opportunity to highlight for the Board where in the pre-filed evidence this information is available for review and consideration.

EPCOR would like to confirm to the Board that detailed information regarding the allocation of costs associated with pressure regulating, metering stations and plastic distribution mains was included in Exhibit 7, Tab 1, Schedule 2, at pages 1, 5, 9 and 10 of 21, of the rate application.

The ultimate allocation of these costs can be determined by reviewing the cost allocation study, starting with the functionalization of the rate base (Table 7-5: Functionalization of Rate Base), then classification (Table 7-15: Classification of Rate Base), then the percent of costs allocated to each rate class (Table 7-24: Allocation Percentages of Classified Costs by Rate Class), and finally the costs allocated to each rate class (Table 7-25: Allocation of Rate Base).

---

<sup>1</sup> EB-2018-0264 – IGUA Letter dated October 30, 2019 re: EPCOR Reply Argument, p. 2.

We trust the enclosed is satisfactory.

Sincerely,
