Christine E. Long  
Registrar and Board Secretary  
Ontario Energy Board  
2300 Yonge Street, 27th Floor  
Toronto ON M4P 1E4

Dear Ms. Long:

**Re: Board File No. EB-2019-0031  
Energy+ Inc. – 2020 IRM Application  
Interrogatory Responses**

Please find attached Energy+ Inc.’s responses to interrogatory questions, which were filed on RESS in accordance with Procedural Order No. 1 with respect to the above noted proceeding.

Two hard copies of the responses to interrogatories are being couriered to the OEB’s offices.

As part of the responses to the interrogatory questions, Energy+ Inc. is filing redacted versions of following documents on the public record:

<b>Interrogatory</b>	<b>Details</b>
E-Staff-66 a	Load and Generation details
E-Staff-66 b	Confidential Excel model with Load and Generation data EnergyPlus_CHP_Project_Monthly_Meter_Data_CONFIDENTIAL.xlsx
Appendix – E-Staff-66	Co-Generation Facility Information

Energy+ is filing the above sections in confidence pursuant to the Board’s Practice Direction on Confidential Filings (“Practice Direction”). The third party whose information has been redacted is engaged in competitive business activity. The information that has been redacted is consistently treated in a confidential manner. Disclosure of the third-party information in the documents listed above could reasonably be expected to prejudice the economic interest of, significantly prejudice the competitive position of, cause undue financial loss to, and be injurious to the financial interest of the applicable third party.

The Practice Direction recognizes that these are among the factors that the Board will take into consideration when addressing the confidentiality of filings. They are also addressed in subsection 17(1) of the *Freedom of Information and Protection of Privacy Act* (“FIPPA”), and the Practice Direction notes (at Appendix C of the Practice Direction) that third party information as described in subsection 17(1) of FIPPA is among the types of information previously assessed or maintained by the Board as confidential.

Energy+ is filing two confidential unredacted versions in hard copy only. Energy+ has also provided two USB storage devices that contain the confidential data requested in response to interrogatory E-Staff-66 b. The unredacted versions of the document have been placed in a sealed envelope marked "Confidential". These documents are marked "Confidential", and Energy+ has identified the portions of the documents in which confidentiality is claimed through the use of yellow shading. Energy+ requests that the unredacted documents be kept confidential.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "DM", with a long, sweeping underline.
