Learn more. Have your say.

Burlington Hydro Inc. applied to the Ontario Energy Board to raise its electricity distribution rates effective May 1, 2020. If the application is approved, a typical residential customer of Burlington Hydro Inc. would see an increase of approximately \$0.58 per month. Other customers, including businesses, may also be affected.

The requested rate increase is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. The rate increase includes Burlington Hydro Inc.'s request for incremental funding to replace its Customer Information System and Geographic Information System and to discontinue an existing incremental capital rate rider (Incremental Capital Project 1 - 2019) starting May 1, 2020.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Burlington Hydro's request. We will determine whether the company has used the applicable models and formulas required by the OEB and whether to approve Burlington Hydro's above-noted requests. We will also hear questions and arguments from individual customers and from groups that represent Burlington Hydro's customers. At the end of this hearing, the OEB will decide what, if any, rate increase will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
