DECISION AND ORDER

Public Energy Gas Inc. (Public Energy) filed two applications on August 30, 2019 under section 60 of the *Ontario Energy Board Act, 1998* (OEB Act) for an electricity retailer licence and an electricity generation licence.

The OEB combined the applications into one proceeding, pursuant to section 21(5) of the OEB Act. This Decision and Order is being issued by the Delegated Authority without a hearing pursuant to section 6(4) of the OEB Act.

Public Energy is an Ontario Corporation formed in September 2018 to develop, own and operate a number of gas-fired generation facilities, connected behind-the-meter, to supply electricity to large-volume industrial or commercial customers under long-term retail contracts.

The OEB finds that the applications should be granted. The applicant provided the necessary financial, technical and conduct information to be licensed as an electricity retailer and generator.

IT IS ORDERED THAT:

1. The application for an electricity retailer licence is granted on such conditions as are contained in the attached licence.
2. The application for an electricity generation licence is granted on such conditions as are contained in the attached licence.
