**Re: EB-2019-0194 EGI 2020 Rates**

Dear Ms. Walli:

Pollution Probe applies for intervenor status in EB-2019-0194 (EGI 2020 Rates) and requests that it be eligible for the recovery of reasonably incurred costs for its participation.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<http://www.rds.oeb.ca/HPECMWebDrawer/Record/647508/File/document>

### **Goals and Objectives**

Pollution Probe intends to focus on the following areas during this proceeding.

- 2020 Rate Adjustment
- DSM Volumetric Adjustment
- Incremental Capital Module (ICM) and related Asset Management Plan Addendum

Enbridge indicated that it is interested in a phased proceeding. Pollution Probe believes that the interrogatory process will assist the Board in determining whether a phased process is practical and efficient.

### **Intention to Seek Cost Awards**

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

**Notice**

Pollution Probe requests that further communications with respect to this matter be sent to:
