**Re: License withdrawal application**

---

Office of Ontario Energy Board,

We are writing this letter to initiate withdrawal process for our OEB license EW-2015-0186. Enbala has recently restructured its services and product offering and, no longer require OEB license to participate in IESO market. Enbala has already completed membership withdrawal from IESO market and is no longer a registered market participant.

We request you to initiate the process of withdrawal of our OEB license.

Please write back to us if you need any further information to complete the process.

Thanking you.

Sincerely yours,

Jeff MacAulay,  
Chief Operating Officer,  
Enbala Power Networks Inc.
