**Re: Notice of Request to De-Register and Advance Notice of the Planned Retirement of Smoky Falls 1 GS and the Associated Metering Points**

OPG hereby gives notice of its request to de-register the following facilities at the earliest possible date:

1. Smokey Falls 1 GS (SMOKY-LT.AG1234\_B; Resource ID: 110363), which is a four unit hydroelectric generating station with a total registered generation capacity of 61.2 MW; and,
2. metering installations D1K1 (Metering Point IDs : 1000001230 and 1000001231) and D2K2 (Metering Point IDs: 1000001240 and 1000001241).

The above de-registration notice is being provided as per the IESO Market Rules, Chapter 7, Section 2.4. Consistent with Chapter 7, Section 2.4.2 of these rules, I await your response within ten business days of the date of receipt of this notice.

In addition, as per Chapter 7, Section 2.4.8 of the IESO Market Rules, OPG hereby gives advance notice of its plans to retire Smokey Falls 1 GS. The planned retirement will take effect at the earliest opportunity following the expiry of the 6 month notice period required under the Market Rules. I can also advise that replacement facilities have already been constructed for Smokey Falls GS.

Should you require further information about this notice please contact:
