Dear Ms. Long:

**Re: Corporation of the Town of Marathon
Ontario Energy Board File Number: EB-2018-0329**

We are writing on behalf of the Corporation of the Town of Marathon ("**Marathon**") in its own capacity and as the representative of the Township of Manitouwadge, Township of Schreiber, Township of Terrace Bay and the Municipality of Wawa (together, the "**Applicants**") to correct an inadvertent typographical error in Marathon's original response to OEB Staff Interrogatory #41, part (a) ("**OEB Staff-41(a)**") which was filed on November 26, 2019.

Marathon's original response to OEB Staff-41(a), filed on November 26, 2019, read:

The current variable charge estimate for LNG delivered by Nipigon LNG is \$0.34 per GJ produced and regasified, based on current commodity and market prices. The variable cost comprises the Utility's pro-rata share of the cost of natural gas, electricity, nitrogen and other items consumed in the liquefaction and regasification process.

We enclose a revised response to OEB Staff-41(a) which highlights the corrected response to OEB Staff-41(a), as stated in the application at Exhibit A, Tab 8, Schedule 1, Attachment 1, p. 32 of 58:

The current variable charge estimate for LNG delivered by Nipigon LNG is \$0.44 per GJ produced and regasified, based on current commodity and market prices. The variable cost comprises the Utility's pro-rata share of the cost of natural gas, electricity, nitrogen and other items consumed in the liquefaction and regasification process.

Yours truly,
Dentons Canada LLP
