Dear Mr. Murphy:

Re: EB-2019-0048 Application for 2020 Rates

The OEB provided a draft Decision and Rate Order and draft Tariff of Rates and Charges in the above-noted proceeding on December 2, 2019. On December 5, 2019, in its comments on the drafts, Kingston Hydro noted two items to the OEB's consideration.

1. The Global Adjustment rate rider with a rate of \$(0.0012) kW was mislabelled for the Residential and General Service < 50 kW rate class as a deferral and variance rate rider for non-wholesale market participants. Kingston Hydro suggested a change to the description for the global adjustment rate rider to "Rate Rider for Disposition of Global Adjustment Account (2020) -effective until December 31, 2020 -Approved on an Interim Basis".

2. A change to the description for the Group1 rate riders for rate classes to "Rate Rider for Disposition of Group 1 Deferral/Variance Accounts excluding Global Adjustment (2020) - effective until December 31, 2020 -Approved on an Interim Basis".

The OEB has made the change noted in item one above. The description for the Global Adjustment rate rider \$(0.0012) kWh has been changed to "Rate Rider for Disposition of Global Adjustment Accounts (2020) – effective until December 31, 2020 – Applicable only for non-RPP Customers – Approved on an Interim Basis".

With respect to item two, the OEB notes that the descriptor “Rate Rider for Disposition of Deferral/Variance Accounts (2020) – effective until December 31, 2020 – Approved on an Interim Basis” is consistent with the rate rider label the OEB has been using for all distributors for some time. The OEB will consider Kingston’s suggestion for future rate setting processes.

The OEB has now issued a final Decision and Rate Order together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,
