Dear Ms. Long,

RE: EB-2019-0022 Brantford Power Inc. -Reply Submissions

Attached please find the Reply Submissions of Brantford Power Inc. (BPI) in OEB Case No. EB-2019-0022. BPI is also aware of the Interim Rate Order on Uniform Transmission Rates (UTRs) issued yesterday, December 19th 2019 (OEB Case No. EB-2019-0296), for UTRs effective January 1, 2020. Accordingly, in addition to BPI's reply submissions, BPI has prepared an IRM Rate Generator model which incorporates these Interim UTRs, for the OEB's consideration. The model is consistent with the model provided by OEB Staff in their submission dated December 6, 2019, with the change limited to updating the UTRs for 2020 on tab "11. RTSR-UTRs and Sub-Tx" , and all consequential impacts to the calculated Retail Transmission Rates. BPI notes that the \$30 Collection of Account charge appears in the Tariff of Rate in this tab and requests that OEB Staff make the required updated to remove this charge from any final Rate Order.

Please do not hesitate to contact me with any questions.

Sincerely,

Original Signed By

Oana Stefan
