Dear Ms. Walli,

Re: Chapleau Public Utilities Corporation (CPUC) Application for approval to amalgamate Chapleau Public Utilities Corporation and Chapleau Energy Services Corporation and continue operations as Chapleau Public Utilities Corporation

OEB File Number: EB-2019-0135

Dear Ms. Walli,

Further to the Board's order dated December 19, 2019 that:

3. *Chapleau Public Utilities Corporation shall promptly notify the OEB of the completion of the transaction referred to in paragraph 1 above.*

CPUC can advise the Board that the amalgamation of Chapleau Public Utilities Corporation and Chapleau Energy Services Corporation was completed effective January 1, 2018.

With respect to the Board's order dated December 19, 2019 that:

4. *Chapleau Public Utilities Corporation is granted an exemption under section 71 (4) of the OEB Act on a time-limited basis effective as of the date of this Decision and Order until its next rebasing application and, until then, shall report annually on the nature of the*

activities being performed together with confirmation that these activities do not result in any incremental cost to the ratepayers.

CPUC notes that it filed its IRM application for 2020 rates earlier this year, an application that is currently being processed by the Board, and that elsewhere in the decision the Board directed that the informational filing required by the Board's order should be made as a part of CPUC's annual IRM Rate application process. Accordingly, given that the 2020 IRM application is already underway, and given the information that CPUC has already filed in this proceeding with respect to its activities to date, CPUC will assume that it should next file information in accordance with the Board's order as part of CPUC's application for 2021 IRM rates unless the Board advises otherwise.

If you have any questions with respect the foregoing, please do not hesitate to contact me.

Respectfully,
