# EPCOR NATURAL GAS LIMITED PARTNERSHIP

Application for quarterly rate adjustment mechanism commencing January 1, 2020

By Delegation, before: Pascale Duguay

December 23, 2019

### INTRODUCTION AND PROCESS

EPCOR Natural Gas Limited Partnership (ENGLP) filed an application on December 11, 2019 with the Ontario Energy Board (OEB) for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of natural gas commencing January 1, 2020 (the application).

The application was made pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* and in accordance with the Quarterly Rate Adjustment Mechanism (QRAM) established by the OEB for dealing with changes in gas costs.<sup>1</sup>

ENGLP provided written evidence in support of the proposed changes outlined in the application. ENGLP provided the application and pre-filed evidence to all parties of record in ENGLP's last rates proceeding (the Rate Proceeding).<sup>2</sup> No parties intervened.

OEB staff requested additional details regarding ENGLP's new natural gas supply contract with Lagasco Inc., a local producer.

The rates in the application also include the implementation of the 2020 distribution rates previously approved by the OEB on November 14, 2019.<sup>3</sup>

### **OEB FINDINGS**

The QRAM is intended to strike a balance between ensuring that consumers are receiving appropriate price signals which reflect natural gas market prices, and protecting the interest of consumers that purchase their gas from the distributor by reducing, to some extent, the volatility in the price of natural gas. Natural gas commodity prices charged by ENGLP are based on:

- a market price forecast for the commodity over the next 12 months
- a true-up between actual and forecast commodity prices for prior periods as actual costs are passed on to customers without a mark-up. By design, the QRAM includes smoothing of price volatility by spreading this difference over a 12-month period.

<sup>&</sup>lt;sup>1</sup> EB-2008-0106.

<sup>&</sup>lt;sup>2</sup> EB-2018-0336.

<sup>&</sup>lt;sup>3</sup> ENGLP filed a motion to review which included a request to stay the Rate Order dated November 14, 2019 for its 2020-2024 distribution rates. In Procedural Order #1 issued on December 17, 2019, the OEB did not grant ENGLP the request.

The OEB approves the application on an interim basis for the following reasons.

In response to questions from OEB staff regarding the new natural gas supply contract with Lagasco Inc. (Local Production C or Lagasco contract), ENGLP stated that "it is not seeking approval of the costs consequences of the Lagasco contract effective January 1, 2020 as these costs have been approved in a previous proceeding (i.e. the Rate Proceeding)".<sup>4</sup> Based on a review of the evidence presented in the Rate Proceeding, the settlement proposal and the OEB's decision on the settlement proposal, the OEB is not convinced that the cost consequences of the Lagasco contract were previously approved effective January 1, 2020. While the decision in the Rate Proceeding stated that the OEB approved the settlement proposal in its entirety and the resulting cost consequences of ENGLP's gas supply plan, the settlement proposal refers to requiring locally-sourced natural gas and negotiating pricing (to take effect at the end of September 2020, upon expiry of an existing contract) based on a discount to the Enbridge commodity rate under the M9 Tariff.

In this case, the Lagasco contract is effective January 1, 2020 and is displacing about 30% of the volumes under the M9 contract with Enbridge. The evidence presented in the Rate Proceeding referenced neither the January 1, 2020 date nor the significant volumes involved.<sup>5</sup> In addition, in the Rate Proceeding ENGLP indicated that "in determining the parameters for a long-term gas supply contract, ENGLP will undertake an assessment of the landed costs of the natural supply compared to possible alternatives. Furthermore, ENGLP will conduct a risk assessment including forecasting risk, operational risk; commercial and regulatory risk associated with any long-term supply arrangement and prepare to address these risks in order to minimize the impact to its ratepayers."<sup>6</sup> The OEB is unaware of the alternatives considered by ENGLP. While the pricing structure underpinning the Lagasco contract (at a five percent discount from Enbridge's gas supply commodity charge under the M9 Tariff adjusted for heat content) appears to be consistent with the settlement proposal, the OEB notes that ENGLP is also proposing to pay the local producer a delivery charge and a demand charge for the delivery of gas into the distribution system up to 1,200 GJ/day based on Enbridge's M9 Tariff. Since ENGLP is not proposing to renegotiate a lower contract demand with Enbridge before November 2020 in order to gain operational experience under the Lagasco contract, the resulting effect is that the demand charge is paid for volumes under both the Enbridge and the Lagasco contracts. This is however mitigated by the five percent discount over the M9 Tariff gas supply commodity charge.

<sup>&</sup>lt;sup>4</sup> EB-2018-0336.

<sup>&</sup>lt;sup>5</sup> EB-2018-0336, Exhibit 4, Tab 1, Schedule 1, page 5, Table 4.1-8.

<sup>&</sup>lt;sup>6</sup> EB-2018-0336, Exhibit 4, Tab 4, Schedule 1, page 12, para. 4.3.1.

The OEB expects ENGLP to address these matters in the annual review of its gas supply plan which is scheduled to be filed May 1, 2020. In the meantime, ENGLP's rates will remain interim. Following the annual review of the gas supply plan, the OEB will determine the forum in which the status of the interim rates will be addressed. The OEB also expects ENGLP to correct the error (\$2,851.39) identified in response to OEB staff question #5b as part of its April 2020 QRAM application.

ENGLP's rates will be adjusted effective January 1, 2020 to reflect a decrease in forecast natural gas prices and prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending December 2020. The reference price will also be adjusted to reflect the decrease in forecast natural gas prices.

The overall bill impact of this application for a typical system sales ENGLP residential customer<sup>7</sup> is a decrease of approximately \$53 per year.

### IT IS ORDERED THAT:

- 1. The rates approved for ENGLP as part of the decision and rate order in EB-2019-0212, dated September 19, 2019, shall be superseded by the rates as provided in Appendix "A" and attached to this Decision and Interim Rate Order.
- 2. The rates shall be effective January 1, 2020 and shall be implemented in ENGLP's first billing cycle commencing in January 2020.
- 3. The reference price for use in determining the amounts to be recorded in the Purchase Gas Commodity Variance Account (Account No.179-27) shall decrease by \$0.004647 per m<sup>3</sup> from the previous OEB approved level of \$0.139836 per m<sup>3</sup> to \$0.135189 per m<sup>3</sup> as shown in Schedule "A" of Appendix "A" attached to this Decision and Interim Rate Order.
- 4. The balance in the Gas Purchase Rebalancing Account shall be prospectively cleared. The resulting gas supply charge will decrease from the previous OEB approved level of \$0.148989 per m<sup>3</sup> to **\$0.142423** per m<sup>3</sup> as noted in Schedule "A" of Appendix "A" attached to this Decision and Interim Rate Order.

<sup>&</sup>lt;sup>7</sup> Customers who uses 2,009 cubic meters per year.

- 5. The appropriate form of customer notice as set out in Appendix "C" shall accompany each customer's first bill or invoice following the implementation of this Decision and Interim Rate Order.
- 6. ENGLP shall pay the OEB's costs incidental to this proceeding upon receipt of the OEB's invoice.

#### **RATE 3 - Special Large Volume Contract Rate**

#### **Rate Availability**

Entire service area of the company.

#### <u>Eligibility</u>

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m<sup>3</sup>; and
- c) a qualifying annual volume of at least 113,000 m<sup>3</sup>.

#### Rate

- 1. Bills will be rendered monthly and shall be the total of:
  - a) A Monthly Customer Charge<sup>(1)</sup>:

A Monthly Customer Charge of \$201.00 for firm or interruptible customers; or A Monthly Customer Charge of \$223.00 for combined (firm and interruptible) customers.

Rate Rider for REDA Recovery – effective for 12 months ending December 31, 2020

#### b) A Monthly Demand Charge:

A Monthly Demand Charge of 29.0974 cents per m<sup>3</sup> for each m<sup>3</sup> of daily contracted firm demand.

- c) A Monthly Delivery Charge:
  - (i) A Monthly Firm Delivery Charge for all firm volumes of 3.6011 cents per m<sup>3</sup>,
  - (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 10.5118 cents per m<sup>3</sup> and not to be less than 7.6156 per m<sup>3</sup>.

\$0.59

0.1280 cents per m <sup>3</sup>
3.9100 cents per m <sup>3</sup>
0.0017 cents per m <sup>3</sup>

- e) Gas Supply Charge and System Gas Refund Rate Rider (if applicable) Schedule A
- f) Overrun Gas Charges:

d)

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
- b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
- c) Interruptible or curtailment provisions; and
- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m<sup>3</sup> for firm gas and 5.4412 cents per m<sup>3</sup> for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m<sup>3</sup> and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

<sup>(1)</sup> Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

#### **Bundled Direct Purchase Delivery**

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

#### **Delayed Payment Penalty**

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

#### **RATE 4 - General Service Peaking**

#### **RATE BT1 – Bundled Direct Purchase Contract Rate**

#### **Availability**

Rate BT1 is available to all customers or their agent who enter into a Receipt Contract for delivery of gas to EPCOR. The availability of this option is subject to EPCOR obtaining a satisfactory agreement or arrangement with Enbridge Gas Inc. and EPCOR's gas supplier for direct purchase volume and DCQ offsets.

#### Eligibility

All customers electing to purchase gas directly from a supplier other than EPCOR must enter into a Bundled T-Service Receipt Contract with EPCOR either directly or through their agent, for delivery of gas to EPCOR at a mutually acceptable delivery point.

#### <u>Rate</u>

For gas delivered to EPCOR at any point other than the Ontario Point of Delivery, EPCOR will charge a customer or their agent all approved tolls and charges incurred by EPCOR to transport the gas to the Ontario Point of Delivery.

Note:

Ontario Point of Delivery means Dawn or Parkway on the Enbridge Gas Inc. (Union South) System as agreed to by EPCOR and EPCOR's customer or their agent.

#### **Transmission Service**

#### **Availability**

#### **IMPORTANT INFORMATION ABOUT YOUR GAS BILL**

#### Gas Delivery

The Ontario Energy Board (OEB) has approved changes to the delivery charges which EPCOR Natural Gas Limited (EPCOR) charges its customers commencing January 1, 2020.

On all bills rendered by EPCOR on or after January 1, 2020, there will be rate changes for the "Fixed Monthly Charge" and "Delivery To You Charges". How will the price change impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 2,009 cubic meters of gas annually, this price change will cause your annual heating costs to decrease by approximately \$40 per year.

Several temporary rate riders expire on December 31, 2019. In addition, some temporary rate adjustments will be added to your bill for the period of January 1, 2020 to December 31, 2020 to recover and/or refund specific amounts as approved by the OEB. The rate riders to be implemented include the clearing of balances in certain deferral and variance accounts.

#### Gas Commodity:

On all bills rendered by EPCOR on or after January 1, 2020, the price we charge for the gas commodity and transportation portion of your bill will be decreasing by \$0.006566 per cubic meter to \$0.142423 per cubic meter. The Ontario Energy Board has approved this change to reflect the prices that EPCOR expects that it will be paying to its gas suppliers through to the end of December, 2020. On your gas bill this cost is on the line entitled "Gas Commodity".

As a regulated utility, EPCOR is permitted to recover what it pays for the purchase of gas plus any costs reasonably associated with this purchase but with no mark up or 'profit'. The price the utility charges you is based on the forecasted gas and transportation costs to EPCOR, which are periodically reviewed by the OEB and reconciled with actual costs. The gas commodity portion gets adjusted regularly throughout the year as the price of the gas commodity changes.

How will the price change impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 2,009 cubic meters of gas annually, this price change will cause your annual heating costs to decrease by approximately \$13 per year. For customers who have arranged to have their gas supplied by a gas marketer/broker, the price may or may not change depending on the terms of the contract the customer has with the gas marketer/broker.

If you have any questions about the changes in rates or any other item that appears on your bill, please feel free to call our office at 519-773-5321.

We would like to thank you for choosing to make natural gas your energy of choice.
