Subject: Proposed 10km Enbridge Gas Inc. pipeline across rural Flamborough

To: Christine Long, Ontario Energy Board Secretary

Re: Proposed 10km Enbridge Gas Inc. pipeline across rural Flamborough

My purpose in writing is to request that you please ensure a full, open and comprehensive review is held on Enbridge Gas Inc.'s proposed 48-inch diameter fracked gas pipeline.

I feel any project that has the potential to put sensitive environmental areas at significant risk should be carefully considered by all stakeholders. Especially so when the decision involves approving additional fossil fuel infrastructure. The science is clear that the burning of fossil fuels must rapidly decrease and ultimately cease altogether.

Enabling the expansion of the production and use of fossil fuels is inconsistent with the greenhouse gas reduction commitments made by our provincial and federal governments.

Please ensure that our democratic process is allowed to function and ensure that all opinions and perspectives are considered when making the decision on this project.

Thank you.

Regards,

Jim Sweetman
