

REQUEST TO VARY

Project Name: Southern Bruce Natural Gas Pipeline Project

OEB File Number: EB-2018-0263

Change Request: 1

Description and Rationale for Change

This change is related to the alignment of 900 metres of the 6-inch Medium Density Polyethylene (MDPE) along Queen Street between Mechanics Ave and Durham Market Street South in Kincardine. After further consultation with local utilities it was determined that the Queen Street road allowance is very congested with existing infrastructure. EPCOR Natural Gas Limited Partnership ("ENGLP") is proposing to move the 900 metre portion of the MDPE pipeline one block east along Princes Street. The pipeline will be installed within the road allowance.

Construction and Restoration Practices

No impact to construction and/or restoration practices

Environmental

No new environmental mitigation will be required

Consultation

No additional consultation required. Businesses and residents along Queen Street will be served with a notice of the change and ENGLP will follow appropriate plans and procedures with respect to engaging stakeholders. This change will not have any impact on our ability to serve any customers along and west of Queen Street.

Lands

No impact to lands

Costs

No impact to costs

Schedule

No impact to the in-service date
