Dear Mr. Denomy:

**Re: Enbridge Gas Inc.
Low Carbon Energy Project
Ontario Energy Board File Number: EB-2019-0294**

On December 20, 2019, Enbridge Gas Inc. (Enbridge Gas) filed an application with the OEB seeking leave to construct approximately 1.3 km of pipeline along a specified route (Project) and a rate rider to compensate affected ratepayers for bill impacts associated with the Project. The OEB issued a letter acknowledging receipt of the application on December 23, 2019.

On January 14, 2020, Enbridge Gas informed OEB staff that it intends to change the route of the pipeline. Enbridge Gas indicated that it will file an update to the application and an amendment to the Environmental Report (ER) reflecting the route change as soon as possible.

As a result, the OEB will hold Enbridge Gas' application in abeyance until Enbridge Gas files the updated application and amended ER.

Yours truly,

Original Signed By

Christine E. Long
Registrar and Board Secretary
