Dear Ms. Stefan and Mr. Molon:

**Re: Brantford Power Inc. (Brantford Power)  
Application for Rates  
OEB File Number EB-2019-0022**

**-And-**

**Energy+ Inc. (Energy+)  
Application for Rates  
OEB File Number EB-2019-0031**

The Ontario Energy Board (OEB) issued a Rate Order in the above-noted proceedings on January 23, 2020. On January 30, 2020, Brantford Power and Energy+ each contacted the OEB separately and noted that their respective Tariff of Rates and Charges issued on January 23, 2020 requires a correction.

Both Brantford Power and Energy+ noted that the “Notice of switch letter charge, per letter” under Retail Service Charges did not reflect an inflationary adjustment as approved by the OEB in a prior Decision and Order issued on November 28, 2019.<sup>1</sup>

---

<sup>1</sup> EB-2019-0280, Decision and Rate Order, November 28, 2019

The correct service charge, for both Brantford Power and Energy+, should be listed as follows:

Notice of switch letter charge, per letter (unless the distributor has opted out of applying the charge as per the Ontario Energy Board's Decision and Order EB-2015-0304, issued on February 14, 2019) \$2.04

The Order, as originally issued, stated:

Notice of switch letter charge, per letter (unless the distributor has opted out of applying the charge as per the Ontario Energy Board's Decision and Order EB-2015-0304, issued on February 14, 2019) \$2.00

The inflationary increase to the "Notice of switch letter charge, per letter" was approved as part of inflationary adjustments for energy retailer services charges for all electricity distributors in the Decision and Rate Order issued by the OEB on November 28, 2019. The Partial Decisions and Rate Orders issued on January 2, 2020 on the IRM elements of Brantford Power's and Energy+'s applications referred to the November 28, 2019 Decision and Rate Order and noted that no further approvals are required to continue to include the inflation adjusted Retail Service Charges on a distributor's Tariff of Rates and Charges.

The OEB has already approved the inflationary adjustment to Brantford Power's and Energy+'s "Notice of switch letter charge, per letter." As such, the OEB considers the error a typographical error. The OEB has corrected the errors pursuant to its powers under Rule 41.02 of the OEB's Rules of Practice and Procedure, which states that the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The corrected versions of the Tariffs are attached and supersede the versions attached as Schedule A and Schedule B to the Final Rate Order.

Yours Truly,
